NUMBER OF COVID-19 CASES ON 4 JUNE 2020 / NOMBRE DE CAS DE COVID-19 LE 4 JUIN 2020

1,749

Latest updates highlighted in **yellow**.

COUNTRY BRIEF / COMPTE RENDU

Sri Lanka was not included in the United Nations' 2020 COVID-19 Global Humanitarian Response Plan (GHRP).

Internal restrictions have been imposed by the government. **The government has lifted the 24-hour curfew in 23 of the country's 25 districts, where a nightly curfew will now be in place between 20.00 and 05.00 until further notice. A 24-hour curfew remains in force in Colombo and Gampaha districts (both Western province) until further notice.** Travel between districts is strictly prohibited, except for those providing essential services. The gradual resumption of transportation services has been announced including travel to Bandaranaike International Airport.

AIRPORT STATUS / STATUT DES AEROPORTS

1. Airport / Flight restrictions (updated 5 June 2020).

As of a communication published by the Civil Aviation Authority of Sri Lanka on 4 April 2020 for all airlines, all carriers are informed that all international Airports in Sri Lanka will continue to be closed for the operation of inbound international commercial passenger flights (i.e. arrivals) until further notice. During the period, the following will be permitted:

- Aircraft departures with passengers originating from Bandaranaike International Airport (BIA), stop overs, transit passengers or visiting tourists.
- Emergency diversions to BIA.
- Freighter operations and humanitarian flights to BIA.
- Technical landings at BIA.
- Inbound ferry flights (without passengers) at BIA.

Otherwise, outbound flights, technical landings, transits, freight and emergency flights will continue to operate exclusively from Bandaranaike International Airport. Maximum transit time is five hours and passengers must have a confirmed onward connection.

2. Passengers / Quarantine (updated 5 June 2020).

A completed Health Declaration Form must be presented to public health inspectors or other authorized officials upon arrival. Visas and ETAs issued by Sri Lanka have been invalidated.

Airline crew must self-quarantine at the location mentioned in the Health Declaration Form and have meals only through in-room dining until they operate the next flight. They must follow strict procedures and hygienic measures adopted by the Government of Sri Lanka including thermal scanning, health declaration forms and wearing a mask.

Passengers and airline crew are subject to medical screening.

IMPORTATION AND CUSTOMS / IMPORTATION ET DOUANES

3. Customs, land, sea (updated 29 May 2020).

According to a best practices update published by the Sri Lanka Customs authority to the World Customs Organization on 28 April, the country has implemented a

number of interim measures to ensure uninterrupted Customs operations during the pandemic.

This includes measures to facilitate the cross-border movement of relief and essential supplies:

- Routine cargo selectivity criteria have been tailored, especially to release medium and low-risk cargo, focusing only on high-risk cargo. As a result, around 70% of the essential items were released under Green Channel;
- With the concurrence of other government agencies, a procedure was introduced to receive and coordinate regulatory approvals such as standards and permits via electronic means to ensure expedited clearance and release;
- Provisional online procedures were introduced to verify certificates of origin and grant preferential tariff treatments for transactions under Preferential Free Trade Agreements (PTA) under the South Asian Association Regional Corporation (SAARC);
- Provisional goods clearance procedures have been extended, with priority for consignments of relief goods and consignments needing expedited clearance;
- Existing 24x7 services were limited to approximately 8 hours per day in view of the low volume of exports as most of the factories were closed for operations due to government policy on minimizing human gathering. However, facilities were made available on call as required during Customs non-operating hours;
- In addition to the regular Customs Enquiry Point, a special 24x7 help desk is in operation to attend public and stakeholder inquiries;
- COVID-19 Contingency Plans detailing working hours and arrangements and emergency official contact numbers were published and regularly updated on the Sri Lanka Customs website.

Other measures in the document aim at sustaining supply chain continuity, protecting Customs administrations' staff (including social distancing measures), and other internal restrictions.

Sea ports:

According to an update by Wilhelmsen on 5 June 2020, all sea vessels whose previous port call was from COVID-19 high risk countries must submit the following documents:

- Pre-arrival documentation on health declaration;
- Last 10 ports of call with dates;
- Vessel status report;
- Crew list;
- Information on port of embarkation and date.

Crew change is permitted, subject to the following conditions:

- Foreign crew changes are now allowed based on a Standard Operating Procedure (SOP) issued by Authorities. Various restrictions and rules apply for on- and off-signing crew.
- Bulk crew change (on signers and off signers) will be assessed and can be approved on a case-by-case basis.

Shore leave is not permitted unless it is for medical reasons. Further restrictions apply:

- No SSCE renewal can be carried out during this period;
- Minimal contact between individuals is to be maintained;
- PCR tests are to be undertaken;
- Crew are to be accommodated in Safe Houses during transit.

4. Customs, importation procedure (updated 15 May 2020).

According to a Logistics Cluster update on 15 May 2020:

- All commercial borders are still open to cargo movement;
- There are a limited number of truckers and Customs officers on duty due to the pandemic.

According to an announcement from the Sri Lanka Customs department dated 18 April 2020, cargo import and export clearance operations have started while adhering to the government policy on social distancing during the pandemic.

The working hours of various Customs offices for both sea and air cargo importation are as follows:

- Long Room, Customs Headquarters – From 10.00 am to 04.00 pm
- RCT Examination Yard, Orugodawatte – From 10.00 am to 12.00 am
- GL 1&2, High Risk Examination Yard, Grandpass – From 10.00 am to 08.00 pm
- NNR LCL Warehouse, Peliyagoda – From 10.00 am to 04.00 pm
- Other LCL Warehouses, Colombo Port – From 10.00 am to 04.00 pm
- Valuation Unit, Orugodawatte RCT Yard – From 10.00 am to 08.00 pm
- Front Line Valuation Unit (Long Room) – From 10.00 am to 04.00 pm
- Air Cargo, Katunayake – From 10.00 am to 05.00 pm

More information, as well as information on exports and transshipments, can be found on the notice. As an extended facilitation, a template-based processing of applications and other operational requests will be provided over email. More information as well as contact details can be found on the notice.
