

PMP – Particle Measurement Program Informal Working Group Task Force 2– Brake Dust Sampling and Measurement

Meeting #9 – Thursday 8 February, 2018, 14:00 – 15:00

Minutes of Meeting – Final Version

1. Tour de table: Participants: AVL-(MA) Michael Arndt; BMW-(RL) Rasmus Leicht; BMW-(KL) Katharina Lammel; BREMBO-(FR) Francesco Riccobono; BREMBO-(MA) Mattia Alemani; CARB-(SC) Sonya Collier; DEKATI-(MMD) Mikko Moisio; FORD-(JG) Jarek Grochowicz; FORD-(MM) Marcel Mathissen; FEDERAL MOGUL-(MM) Marcus Morbach; JARI-(HH) Hiro Hagino; JRC-(TG) Theodoros Grigoratos; LINK-(CA) Carlos Agudelo; LINK-(RM) Radek Markiewicz; TSI-(JS) Jurgen Spielvogel; TSI-(SP) Stephan Percot; TSI-(RA) Bob Anderson; TU Ilmenau-(DH) David Hesse.

2. Introduction: TG thanked all active participants for providing feedback on all open discussions so far as well as on the important discussion of the definition of the scope. TG kindly asked from partners who haven't provided feedback to do so as decisions need to be taken. Finally, TG asked from partners who haven't actively supported TF2 so far to do so or follow the activity through the PMP IWG.

3. Discussion on the definition of the scope: A discussion based on a document prepared by TG took place. The document was prepared from the feedback received from TF2 Members. All items discussed during the meeting are included in the attached document. Decision needs to be taken on whether mass and number size distributions will be included in the scope or remain linked to the activities of the TF2 as a "desirable" outcome. Also several other question remained open after the discussion (all of them listed in the attached document). Feedback on this question is kindly asked from all participants.
