

## Global Access Numbers

The freephone number is a number that overseas participants can use to dial in with no charge to them. (The cost is charged to the conference chairperson's account.)

The local dial-in number allows overseas participants in that country to dial in for the price of a local call.

The international dial-in number is for participants located in a country that is not listed below, so they can use the international number of the country nearest to them.

For the Brazil and Philippines dial-in numbers, please contact the Help desk

| Country               | Local freephone | Local dial-in          | International dial-in  |
|-----------------------|-----------------|------------------------|------------------------|
