

11th Session Status Review and Session Orientation

Web Conference

30 March 2021

Agenda item		Documentation
1. Adoption of the agenda	13:30-13:40	FRAV-11-01
2. ADS lifetime safety	13:40-14:05	FRAV-11-06 (France)
3. AV signaling requirements	14:05-14:30	FRAV-11-09 (GRE AVSR chair)
4. Introduction to SAE J3197	14:30-15:00	FRAV-11-07 (SAE)
5. Introduction to IEEE 2846	15:00-15:30	FRAV-11-08 (IEEE)
6. FRAV status and next steps	15:30-16:00	(Co-chairs)
6.1. Status of safety topics elaboration		
6.2. Selected key questions and request for input		
6.3. Parallel work streams		
6.4. Next session: 8 April		

2. ADS lifetime safety

- Presentation from France (FRAV-11-06)

3. AV signaling requirements

- Presentation for the chair of GRE AVSR task force

4. Introduction to SAE J3197

- Presentation from SAE on ADS data loggers

5. Introduction to IEEE 2846

- Presentation from IEEE on Assumptions for Models in Safety-Related AV Behavior Scope

- Status of safety topics elaboration
 - Synthesis of stakeholder comments on FRAV-09-08
- Key questions raised by comments
 - What are the functions required to operate vehicle in traffic (DDT)?
 - Who are the “users” across the different levels of automation and ADS configurations?
 - Who are the “road users” ADS would interact with?
 - EDR/DSSAD IWG request: FRAV views on DSSAD requirements for ADS
- Parallel work streams to prepare written responses for May session
- Prepare input for discussion on 8 April to provide basis for drafting responses
