

# Standardized Marker

A short feedback to the AEBS group

Submitted by NL

RDW and Rijkswaterstaat Netherlands

# Overview

- Activities for standardization process
- Initiatives for a first example of a standard marker

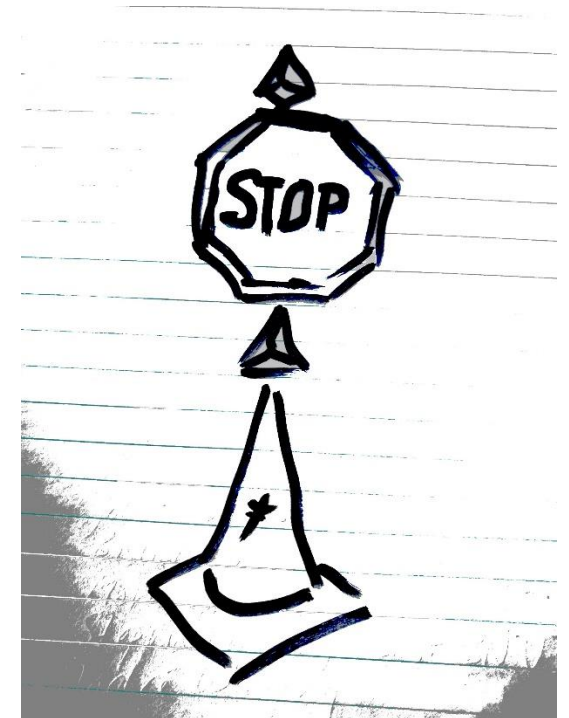

# Standardization process

- EU-NCAP and ISO
  - Surrogate Objects (Scope problem)
- CEDR → CEN
  - Conference of European Directors of Roads
  - CEN TC 226 - Road Equipment
- Request to CP's that support for their contacts with:
  - Road Authorities
  - National representative in CEN (TC226)

# Marker Object

- RWS (Dutch Road Authority)
  - Funding first study for requirements by TNO
- Goals of the project
  - Radar/Camera/Lidar (individual and combined)
  - High True Positive and Low False Negative (Other object that could be misinterpreted)
- Other interested parties are welcome to join, but time is limited
- Target date of delivery
  - First week of September

For animation purpose only
