

PARTICLE MEASUREMENT PROGRAMME

PMP-IWG

BRAKE EMISSIONS

TASK FORCES – WAY FORWARD

Theo Grigoratos

TF2 PLANNING

- ✓ TF2 has engaged in weekly 2h meetings with the aim of improving and/or extending the set of the defined specifications in the protocol;
- ✓ The proposal for amendments in the original protocol are based on the ILS data and information as well as on the experiences gained during the execution phase of the ILS (“Issues log”, etc.);
- ✓ A minimum of 8 regular meetings are scheduled to improve and finalize the protocol - The remaining open points will be addressed and finalized during one or two full day workshops that will be organized in mid-May;
- ✓ The TF2 proposal will be presented to a PMP meeting for feedback and the final approval of the group – Possible dates for the meeting is close to end of May

TF3 PLANNING

- ✓ The TF3 has completed its main task to carry out the experimental part of the Inter-Laboratory Study;
- ✓ The Steering Committee has finalized the quality check of the submitted files and is moving forward with the analysis of the data;
- ✓ Parts of the analysis – that are relevant to the protocol – will be presented to the TF2 to enable decision making – Practically, the activities have been transferred to the TF2;
- ✓ TF3 members are planning to publish the results of the ILS campaign once the analysis is finalized – There is the intention to make conference announcements, peer-reviewed publications, and a final report to be submitted to the PMP group

TF4 PLANNING

- ✓ The TF4 is working intensively on finalizing a proposal for incorporating the regen feature in the PMP procedure;
- ✓ There are two proposals that are being evaluated at the moment – Both of them incorporate best and worst case testing scenarios;
- ✓ The objective of TF4 is to submit its final proposal by the end of April – Still to be discussed if a short testing campaign including 2-3 labs will be feasible at this point;
- ✓ The final TF4 proposal on how to generalize the PMP procedure to vehicles with regen braking capabilities will be presented – along with the overall method – to a PMP meeting for feedback and the final approval of the group in the end of May

Thank you
