

Invitation to the 34th Session of the GRVA Informal Working Group on Functional Requirements for Automated Vehicles (FRAV)

The 34th session of the FRAV informal group will be held via web conference on 10 January between 12:30 and 14:30 CET.

Materials for the session can be found on the [session wiki page](#) as they become available. Participants can [join via this link](#).

The discussions will cover the following topics:

- Review of the draft text of the interim submission to GRVA/WP.29
- FRAV status report to the GRVA January session
- Next steps

Updates from the workstreams and stakeholder presentations, if any, will be integrated into these discussions.

Review of the draft text of the interim submission to GRVA/WP.29

During the 33rd session in Tokyo, FRAV reviewed paragraphs 1 through 1.5.5. and paragraphs 2 through 5.9.5.1. The outcomes were distributed to the FRAV experts in a revised version of document FRAV-33-38. FRAV will continue the review based on a “clean version” of this document (FRAV-34-04).

FRAV status report to GRVA

The WP.29 Framework Document on Automated/Autonomous Vehicles (FNAV) mandates FRAV submission of guidelines for regulatory requirements and for verifiable criteria for ADS safety validation for the June 2023 WP.29 session (WP.29-188-12). The FNAV further mandates a consolidated FRAV/VMAD submission (requirements and assessment) for the June 2024 session.

FRAV will inform the January 23-27 session of GRVA on the status of work towards meeting the mandates. During the 33rd session, FRAV will discuss the status of work and key points to be communicated to GRVA.

Next steps

FRAV will determine plans for further meetings, including a potential session during 19-20 January.

If experts wish time on the agenda for presentations, please notify the secretary. Submissions can be sent to the FRAV secretary (jcream@americanautocouncil.org).
