

IWG ADR-EV 12:th session

Subgroup Motor Vehicle Manufacturers

Meetings since IWG-EV_11th session

- **2023-02-09:**
 - Input to IWG working doc on Battery Master Switch (De-energizing electrical circuits) for WP15 in May.
 - Thermal runaway:
 - Continued discussion on method for risk analysis. Considering the complexity of this topic, the subgroup has evaluated the opportunity to involve in a meeting EV Safety expert(s) from the specific OICA WG.
 - Standard UL2580 briefly discussed.
- **2023-02-23:**
 - Overview presentation on thermal runaway risk handling.
- **2023-03-09:**
 - WoW overview, review of meeting format. Core team + applicable experts depending on subject.
 - Continued work on permanently energized circuits.
- **2023-03-23:**
 - Information on upcoming "International Conference on Fire in vehicles – FIVE 2023" in Stavanger.
 - Presentation on ADR and Product Safety / Product risk assessment and Product liability.
- **2023-04-06:**
 - Focus item on HFCV planned but postponed to other meeting occasion.
 - Presentation on standard ISO 6469-1, Part 1: Rechargeable energy storage system (RESS) — Amendment 1: Safety management of thermal propagation.
 - Idea on focused workshop in June, to create working document on ADR FL for WP15 in November.

Next steps

- Involve in a meeting EV Safety expert(s) from the specific OICA WG.
- Focus meeting on HFCV (Hydrogen Fuel Cell Vehicles)
- Idea on focused workshop in June to create Working document on ADR FL for WP15 in November.
