

Proposal to amend the draft FRAV interim submission to GRVA/WP.29

Modifications to the existing text are marked in **bold** for new or ~~striketrough~~ for deleted characters.

Proposal

5.8.15. [ADS shall comply with the traffic laws ~~in nominal conditions~~, except ~~when~~ in specific circumstances or **such as** when ~~necessary to enhance the safety of the vehicle's occupants and/or other road users~~. **the following two conditions are fulfilled;**

(a) there is no other way to avoid present danger for life, body and property of passengers and other road users, and

(b) the harm caused thereby does not exceed the degree of the harm sought to be avoided.]

Justification

Japan thinks that the ADS should always comply with the traffic laws in principle, and the situation where ADS violates the traffic laws should be limited strictly by clarifying the concrete conditions in the provision.
