

Japan Positions on Subgroups

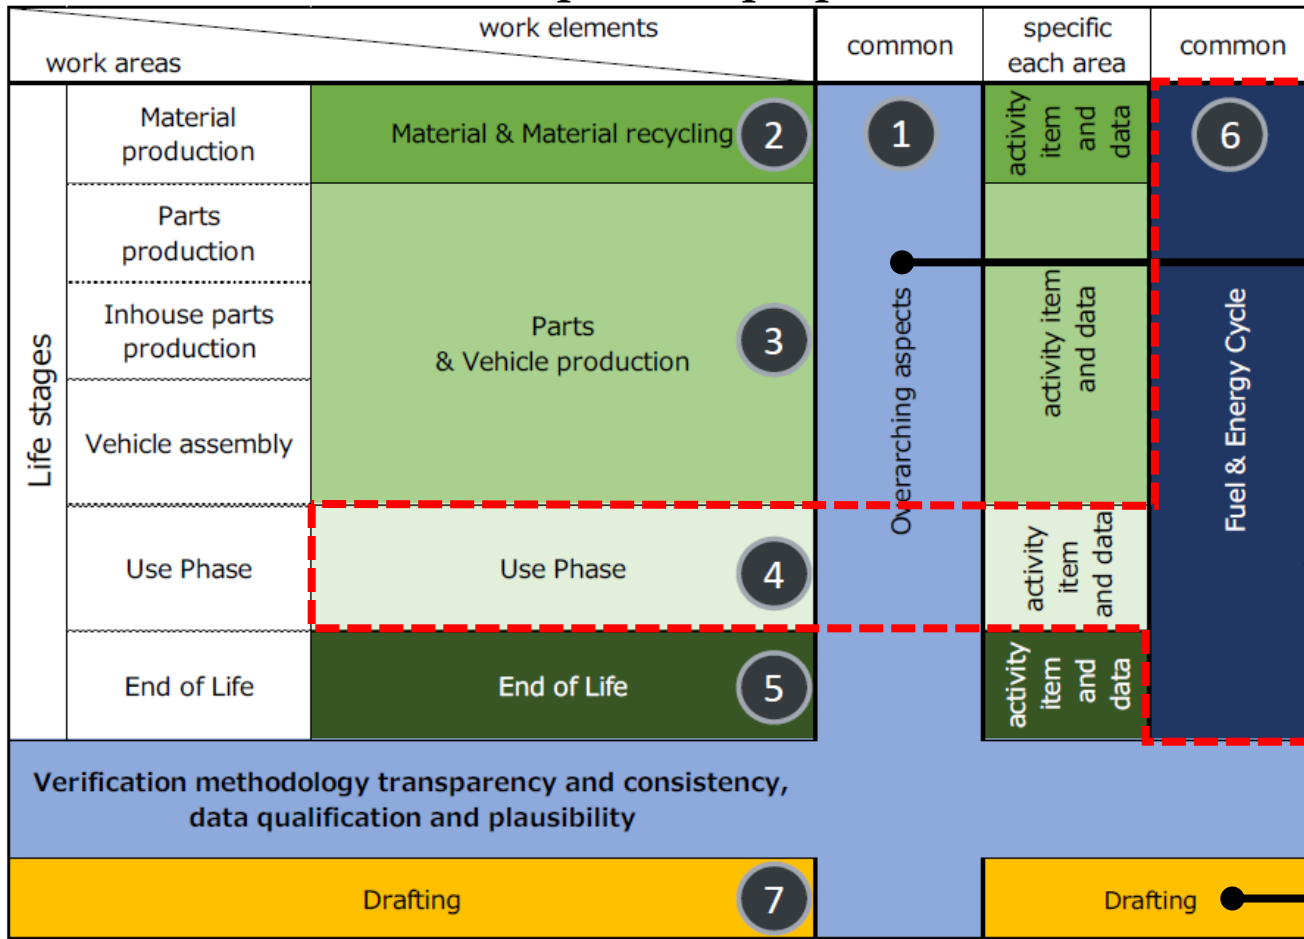

2023.04

A-LCA 6th IWG Meeting

1. Working Structure

Japan has no strong position (means Japan follows IWG decision), as long as the working elements are well taken care by IWG and each subgroup

<<current compromise proposal>>

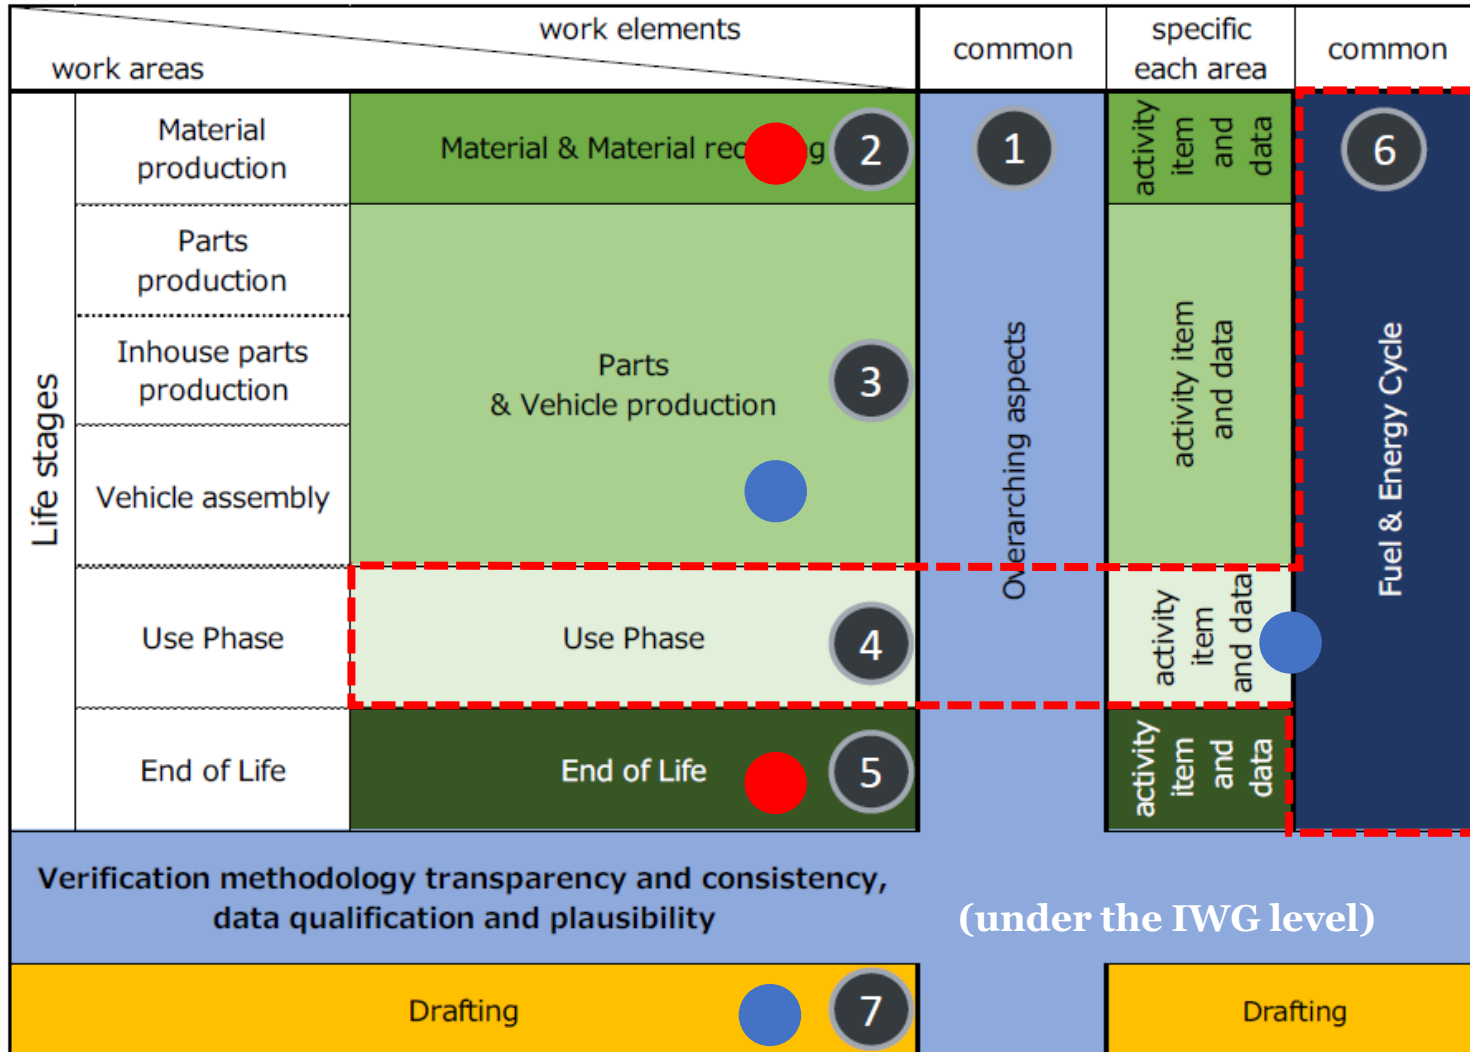

prefer to be taken care by IWG, not subgroup, since some of elements closely links to policies

OK to merge ⑥ into ④ (④ is best choice if ⑥ is merged)

no urgent action is necessary (should be ready by 2nd QTR in 2024)

2. Japan Involvement in Subgroups

Japan assigns the SG leaders for SGs #2 & #5, if the IWG accepts and participates in each subgroup.

 : as a Leader, if the IWG accepts
 : as a Member
