

## COMMON INTERPRETATION

*Remark: some comments in blue characters*

*Corrections from the discussion during the RDASEP-01 meeting*

### UN-R51-03.S7 (Entry into force January 04, 2023) Transitional provisions

*“11.13. Supplement 7 (in particular, but not limited to Appendices 2 and 3 to Annex 3 and Annex 9) does not apply to existing type approvals, originally granted prior to the date of entry into force of Supplement 7.”*

#### INTERPRETATION

- **After 04.01.2023 and before 01.07.2023,**  
 new type approvals have to be granted under **Suppl. 7**  
 WITHOUT MEASUREMENTS OF RD-ASEP  
 (RD-ASEP can be done for new type approvals or for extensions during this period, if the manufacturer wants to do RD-ASEP-measurements for the monitoring data base).
- **After 04.01.2023,**  
 extensions of type approvals have to be granted under **Suppl. 6**  
 (extension of approvals obtained before January 04, 2023 have to be granted under Suppl.7 or any upper level (for the time being up to the ongoing Suppl. 8 and 9) without Measurement of RD-ASEP)  
 WITHOUT MEASUREMENTS OF RD-ASEP neither Measurement uncertainties  
 (RD-ASEP and/or MU can be done for extensions of type approvals, if the manufacturer wants to do RD-ASEP and/or MU-measurements for the monitoring data base. In this case also under ~~Suppl. 6~~ or Suppl. 7?).
- **After 01.07.2023,**  
 new type approvals have to be granted under **Suppl. 7**  
 WITH MEASUREMENTS OF RD-ASEP (not mandatory for vehicles exempted – e.g., EV equipped with an AVAS compliant with UN-R138)  
 (RD-ASEP can be done for EXTENSIONS OF APPROVALS, if the manufacturer wants to do RD-ASEP-measurements for the monitoring data base).
