

HD Battery Durability GTR Schedule

2023/12/20
prepared by Japan

Japan position : **delay by one (1) WP.29 session**
means that “request for approval during 2025 March WP.29 session”
(refer below for detailed schedule)

< Justification > To make verification more effective, Japan considers to introduce new parameter(SOCE) which will be defined in HD GTR Annex2 into domestic OBFCM requirement at the same timing of newly developed HD EV test procedure* from April 2025. This means the delay should be minimized by utilizing the scheduled meeting effectively.

* : for fuel consumption and/or energy consumption

Year	2024												2025		
Month	1	2	3	4	5	6	7	8	9	10	11	12	1	2	3
WP.29													194 th		195 th
GRPE	90 th				91 st					92 nd			93 rd
