Progress in SG3

A-LCA 13th session, 2024-1-8~9

Leading team:

Hwansoo Chong (NIER)

Tina Dettmer (OICA)

Ansgar Christ (CLEPA)

Tongzhu Zhang (CATARC)

Discussion topics

➢ Request from SG1

    ○ What kind of structure of the secondary data could be considered

➢ Overarching aspects
    ○ declared unit : can be done by Jan.

    ○ materiality limit, primary data share & data quality rating, allocation hierarchy, etc.

(more details: [SG3-6th meeting - Transport - Vehicle Regulations - UNECE Wiki](#))

➢ Next meeting schedule

Secondary data

➢ What issues should be considered in the secondary data

- ○ What kind of secondary data can be divided into
  - (OICA)For part production, global average or regional average can be considered

  - (CLEPA) The rest of the vehicle which is not hotspot should be more detailed than global data. → regional or national

- ○ (OICA/CLEPA)Ideal case of time representativeness
  - a specific year, a period of three year or others?
  - how to keep the data up to date

➢ (Suggestion) unclear whether all members understand the same for many of the words we use ☞ Need for a glossary that defines the words we use

Meeting schedule

Next meeting

➢ Jan. 16th / 11:00 AM cet.~ 13:00 cet.

➢ On-line

➢ Topics
  ○ Request from other SGs
  ○ Overarching aspects

Feb. ~ Dec.

➢ The third Tuesday of every month (Time: tbd)
➢ On-line or Hybrid

Thank you
