

Q. UNR158

Annex 9. Test methods for close-proximity rear-view field of **vision**

1.3 . Test conditions

1.3.3.4. Rear hatch and trunk lids.

If the vehicle is equipped with rear hatches or trunk lids, they are closed and latched in their normal vehicle operating condition.

Annex 10. Test methods for **detection** systems

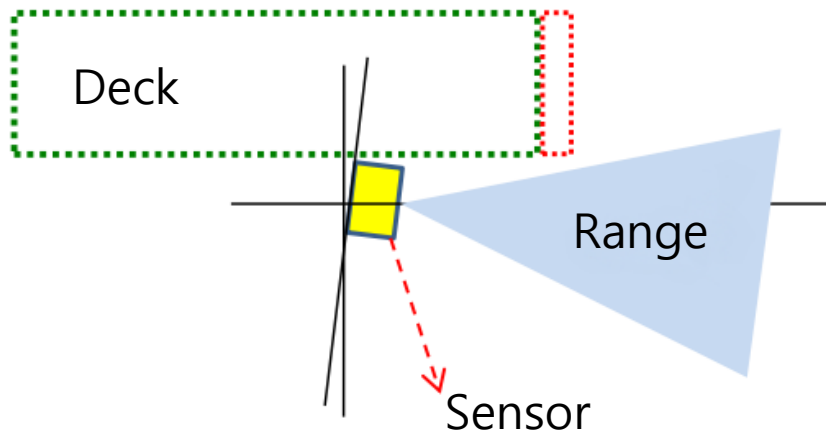

In the Test conditions of Annex 10, there is **no specification** about Rear hatch and trunk lids.

Problem

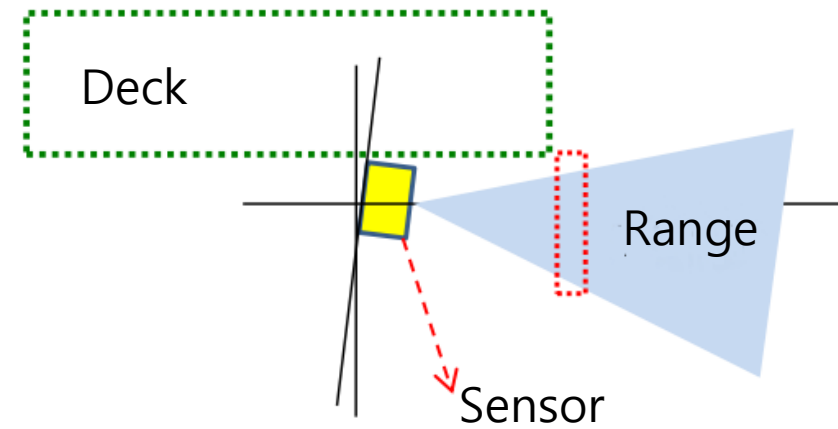

It may affect operation of sensors

Tailgate closed

Tailgate open

◆ Conclusion

- Difference between Annex 9 (vision) and Annex 10 (detection)
- The test in Annex 10 may be conducted under an abnormal condition,
 - ✓ Such as, a tail gate is open

◆ Question

- Why those are different?
- If needed to be amended, how to amend?
 - ✓ Such as, copy the test condition in Annex 9 and paste it in Annex 10
