

EVE Session 12 Topic Summary

Topic	Option #1 Maintain EVE Mandate	Option #2: Modify EVE Mandate	Option #3 Remove from EVE Mandate	Major Discussion Points
Vehicle Range and Energy Consumption	No CP has volunteered to lead this	Important issue. Put on hold for future discussion with WLTP?	Topic not supported by Japan and EC. To be covered by WLTP	Reviewed WLTP plan. Exact timing for WLTP is not fixed
Method of Stating Energy Consumption	China is willing to lead this work. Continue under Part A	Continue work only under Part A?	Topic not supported by Japan and EC. Outside the scope of WP.29	Generally recognized that this is an important topic
Battery Performance and Durability	CP's willing to perform work now: Canada and USA	Not required	Not required	Possible for future WLTP work, timeframe not known
Battery Recycling	ACEA (OICA) may lead the topic	Continue work only under Part A?	Not required	Europe has a functioning recycling program and recyclability framework
Power Determination of EV's	Supported by Korea and Germany EVE mandate seems aligned with presentation	Not required	Not required	Reviewed presentation on considerations
