

Topic 1: Vehicle Range and Energy Consumption

Presented by: Japan, WLTP
Day 1, Agenda Item 4
EVE-12 meeting
October 28-29, 2014

Vehicle Range and Energy Consumption

- It is recognized that electrified vehicle range and energy consumption is greatly effected by environmental conditions and vehicle interior climate control and occupant comfort.
- Recommendation 5.1 is “to quantify the impact of climate and auxiliary system operation on range and energy efficiency”

Topic 4: Battery Recycling

Presented by: OICA
Day 1, Agenda Item 6
EVE-12 meeting
October 28-29, 2014

Battery Recyclability

- The reference guide recommends “Having well thought and standardized requirements in this area is likely to make actual recycling requirements easier to specify and more effective in the long term.”
- Within the scope of WP.29?
