

## **AGENDA**

### **of the 9<sup>th</sup> WLTP IWG Meeting**

Location: Salle XII, Palais des Nations, Geneva

Time: 14.01.2015, 9:30 – 17:30

- 1. Welcome & organization**
- 2. Adoption of agenda & minutes**
  - Minutes 8th IWG meeting ([WLTP-08-48e](#))
- 3. Open Issues Table**
  - Update since 8<sup>th</sup> IWG meeting ([WLTP-09-03e](#))
  - Task Force overview ([WLTP-09-03e annex](#))  
(members, meeting schedule, agendas, minutes)
- 4. WLTP Subgroup EV (Annex 8)**
  - Progress report ([WLTP-09-05-rev1e](#)), incl.:
    - # 50, # 55: RCB correction and Phase specific calculation
    - # 51: Mode selectable switch
    - # 52: End of EV range criteria
    - # 58: PEV shorten test procedure
    - # 02, # 56: CO2 family and combined approach
    - # 53: FCV test procedure, starting note
  - Documents for discussion:
    - # 57: Utility factors
      - Development of UFs ([WLTP-09-06-rev1e](#))
      - Harmonization of method and overview of regional UFs in gtr?

## 5. Main part & Cycle issues (Annex 1 & 2)

Downscaling / gearshifting (OIL #4-9):

- Progress report by H. Steven (WLTP-09-07e)

## 6. RLD & dyno setting (Annex 4)

- Progress report (WLTP-09-08e) on RLD issues (#10 – 21) by Rob Cuelenaere
- Proposals for **adoption**:
  - Warming up procedure (WLTP-09-09-rev1e)
  - Wheel alignment (WLTP-09-10e)

## 7. Test equipment and calibrations (Annex 5)

- Proposals for **adoption**:
  - # 24: Accuracy and linearity of the force transducer (WLTP-09-11e) by AUDI
  - # 25: Dyno parasitic loss calibration (WLTP-09-12e) by AUDI
  - # 26: Review of comments from I. Riemersma on measurement equipment (WLTP-09-13e) by AUDI

## 8. Test procedure and conditions (Annex 6)

- Number of tests (OIL #27):
  - Status report by T. Fujiwara (WLTP-09-21-rev1e)
  - EU position by K. Steininger (WLTP-09-22e)
- Settings of engine (OIL #28):
  - Proposal for **adoption** (WLTP-09-14e) by N. Ichikawa
- Provisions for Coasting (OIL #31):
  - Progress report by T. Vogel (WLTP-09-15e)
  - EU objection, **decision** on further proceeding (close working item?)
- Bag analysis (OIL #33)
  - Proposal for **adoption** (WLTP-09-16e), **withdrawn**

## 9. Calculations (Annex 7)

- Additional pollutants (OIL # 44–46)
  - Progress report by C. Astorga (WLTP-09-17e)

## 10. Correction algorithms (OIL #48)

Position paper by EU-COM (WLTP-08-38e):

- Feedback from contracting parties and related organizations should be distributed by **2nd Jan. 2015**
- Feedback on correction algorithms (WLTP-09-23e) and speed trace deviations (WLTP-09-24e) by Japan
- **Analysis of Normalization Report by ACEA (WLTP-09-25e)**
- **Decisions** on package of procedures to be harmonized in WLTP phase 1B (**A and B priority items**)
- Next steps of Task Force / necessary validations?
- View on C and D priority items, possible introduction in WLTP phase 2?

## 11. General issues

- Round Robin exercises:
  - Brief oral reports by B. Coleman & N. Ichikawa.
  - Participation of China & US EPA?
- Definitions
  - Proposals from B. Coleman on Gtr 15 definitions from WLTP IWG # 8 for **adoption** (WLTP-08-45e)
- Drafting issues
  - Report by S. Dubuc (WLTP-09-18e)
  - **Summary of current expert proposals by S.Dubuc (WLTP-09-26e)**
  - Current gtr draft (WLTP-09-04-e)
  - **Organization of Drafting work**  
(establishment of **subgroup**, structure, tasks, members, time schedule)

[\(WLTP-09-27e\)](#)

- Indication of temperatures, proposal ([WLTP-09-19e](#)) by M. Bergmann

## 12. Working Issues for WLTP Phase 2

- Starting note by K. Kobayashi ([WLTP-08-41-rev1e](#), [WLTP-08-41-rev1e annex](#))
- EV issues of WLTP Phase 2 & 3 by K. Steininger ([WLTP-08-42e](#))
- Items of WLTP phase2 by MLIT, draft position ([WLTP-09-20e](#))

## 13. Meeting schedule

- 10<sup>th</sup> WLTP IWG Meeting, Stockholm, **Sweden**, 13.-16.04.2015
- 11<sup>th</sup> WLTP IWG Meeting, Geneva, preceding GRPE, full day requested
- 12<sup>th</sup> WLTP IWG Meeting, Tokyo, **Japan**, dates t.b.d.

## 14. AoB
