	6.8		te	Compromise: ... Mandatory on all vehicles of categories R and S exceeding 1,600 mm in width and exceeding a maximum design speed of 40 km/h. ...	Add: The front position lamp may be omitted if an end outline marker lamp is mounted according the specification of the front position lamp. (Argumentation: in many cases the wheels are the outer edge of the S vehicles. Machines would require both end outline marker lamps and front position lamps at the same position ; the requirements for end outline marker lamps and front position lamps in R7 are identical.)	
	6.12		te	Mandatory on vehicles of category S with a total width of more than 2.55 m. Optional on vehicles of category S with a total width not exceeding 2.55 m.		
	6.26.1		te/ed	Mandatory on vehicles of category S with a total width of more than 2.55 m. Optional on vehicles of category S with a total width not exceeding 2.55 m.	Mandatory on vehicles of category S with a total width of more than 2.55 m and on vehicles that have an external surface of the vehicle comprising <ul style="list-style-type: none"> • directed outwards, pointed or sharp parts, • rough surfaces, or
