Please don't change the structure of this table, just insert the necessary information.

ITU-T SG12 Question 4 is happy to inform UNECE AECS working group that ITU-T SG12 has started work on "Speech communication requirements for emergency calls originating from vehicles", P.emergency. The Recommendation planned includes use cases, requirements, and associated test methods for the speech communication for emergency call communication originating from vehicles using a dedicated emergency call system. The latest draft 4 of this Recommendation is attached to this liaison statement.
