

OIL #50: RCB correction, OIL #55: Phase Specific Calc. (CS) VW simulation results

WLTP-SG-EV-08-02

RCB correction

Corrected values → slope comparison of family correction factor corrected values (corrected cycle values and phase specific CS values)

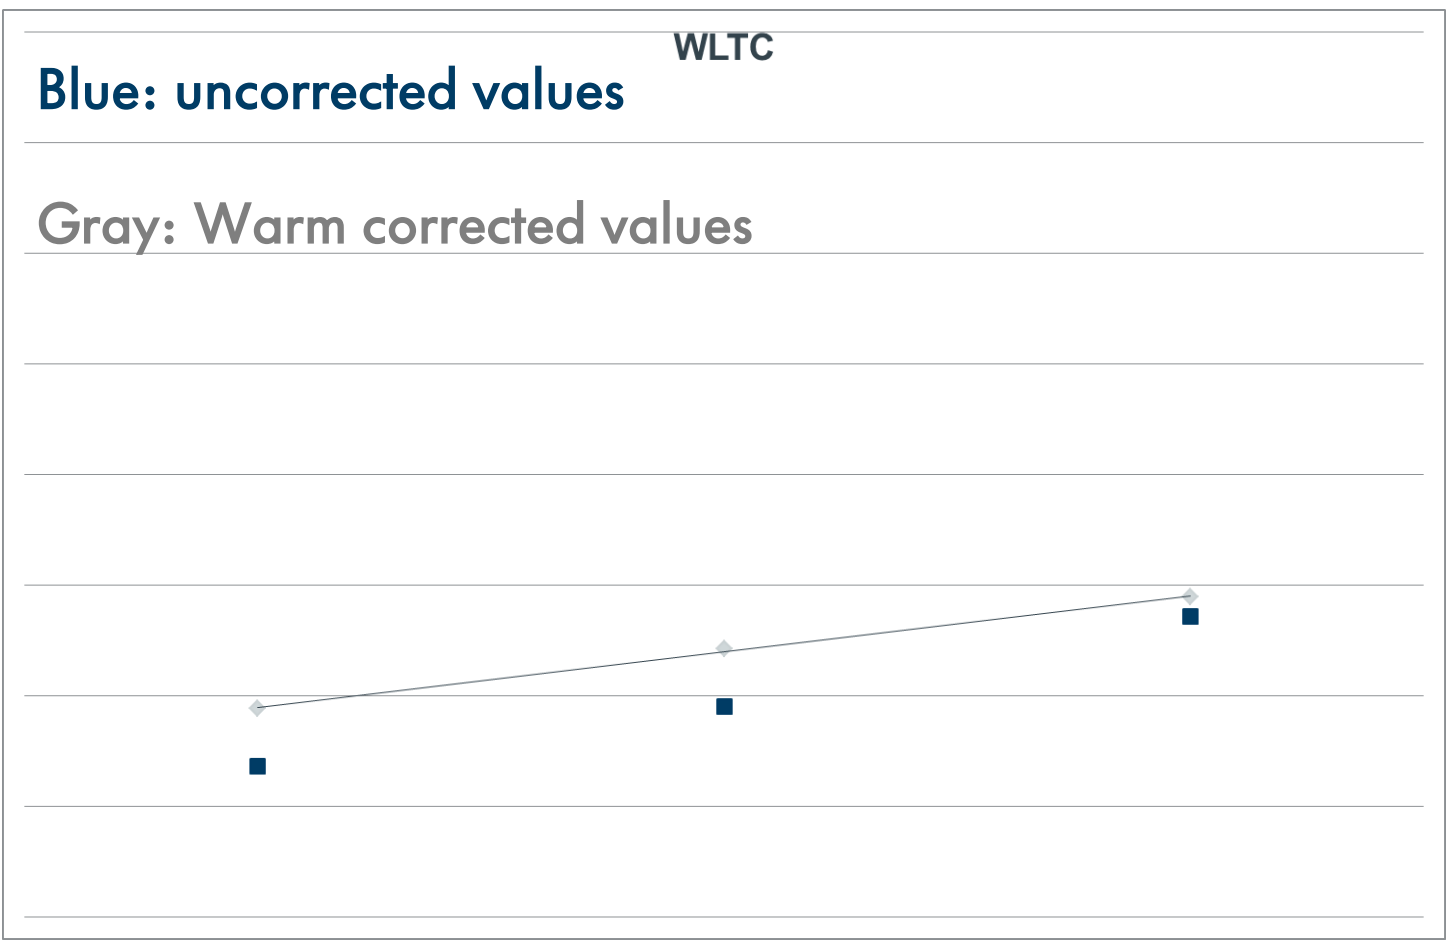

↑ FC

TML TMM TMH

RCB correction

Corrected WLTC values → simulation results

↑ FC

TML

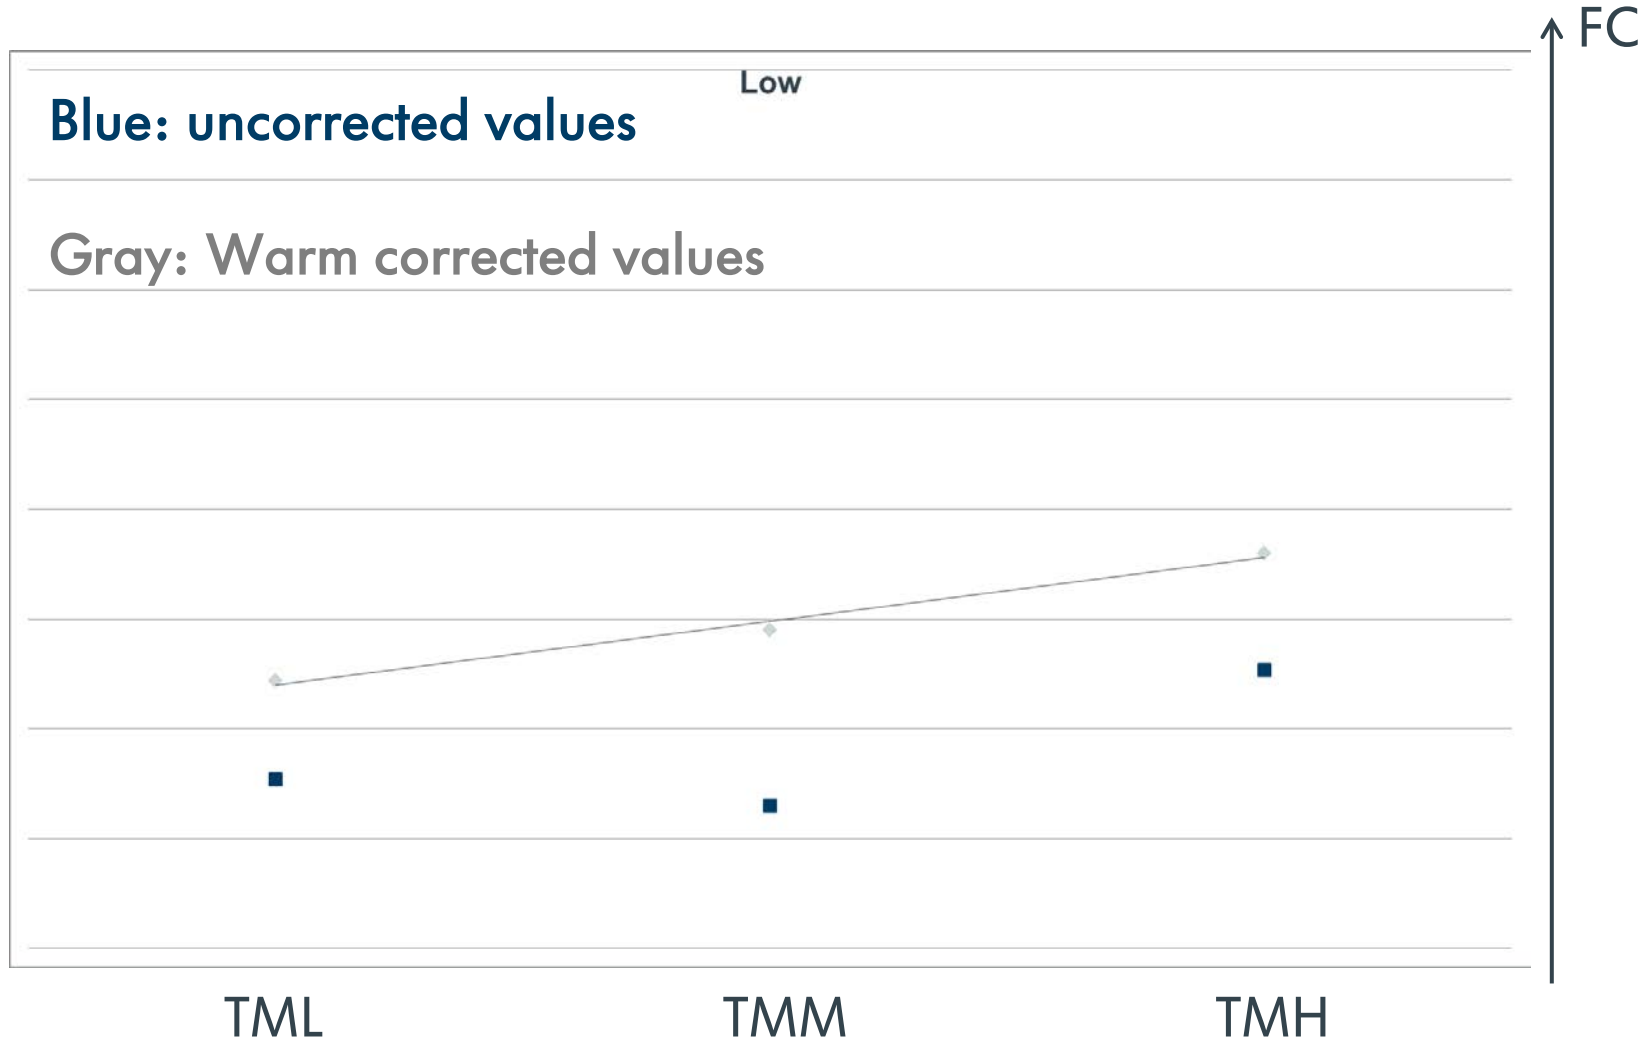

TMM

TMH

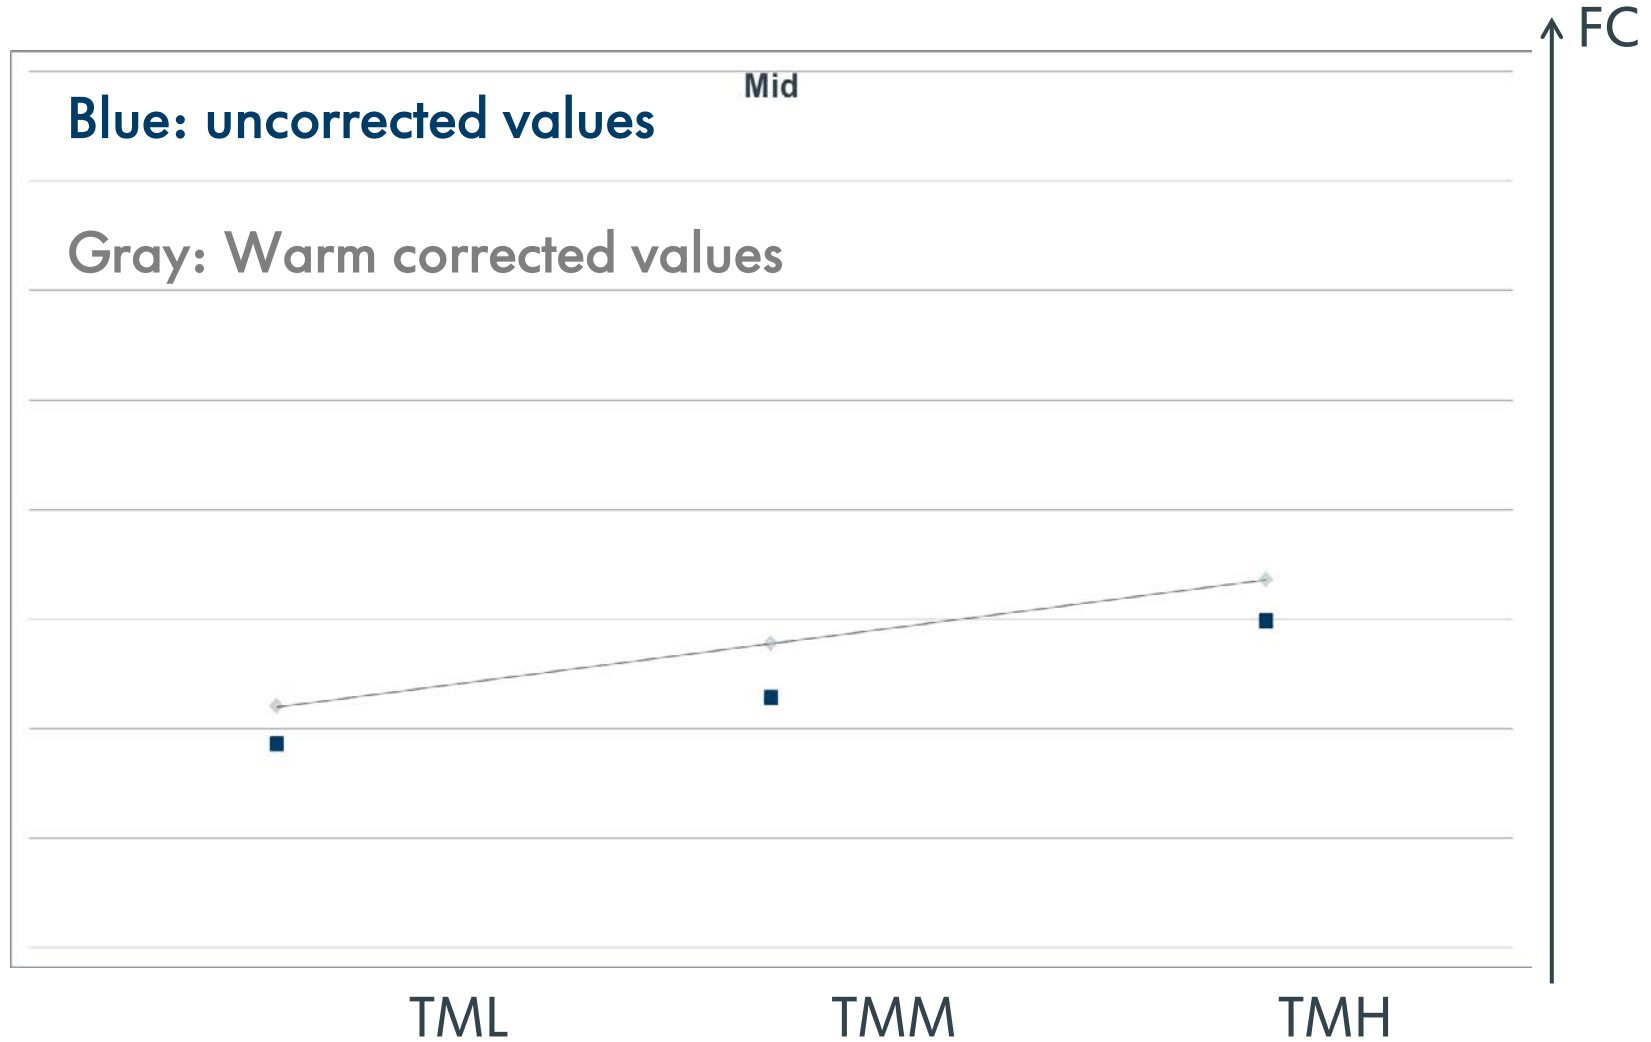

RCB correction

Corrected low phase values → simulation results

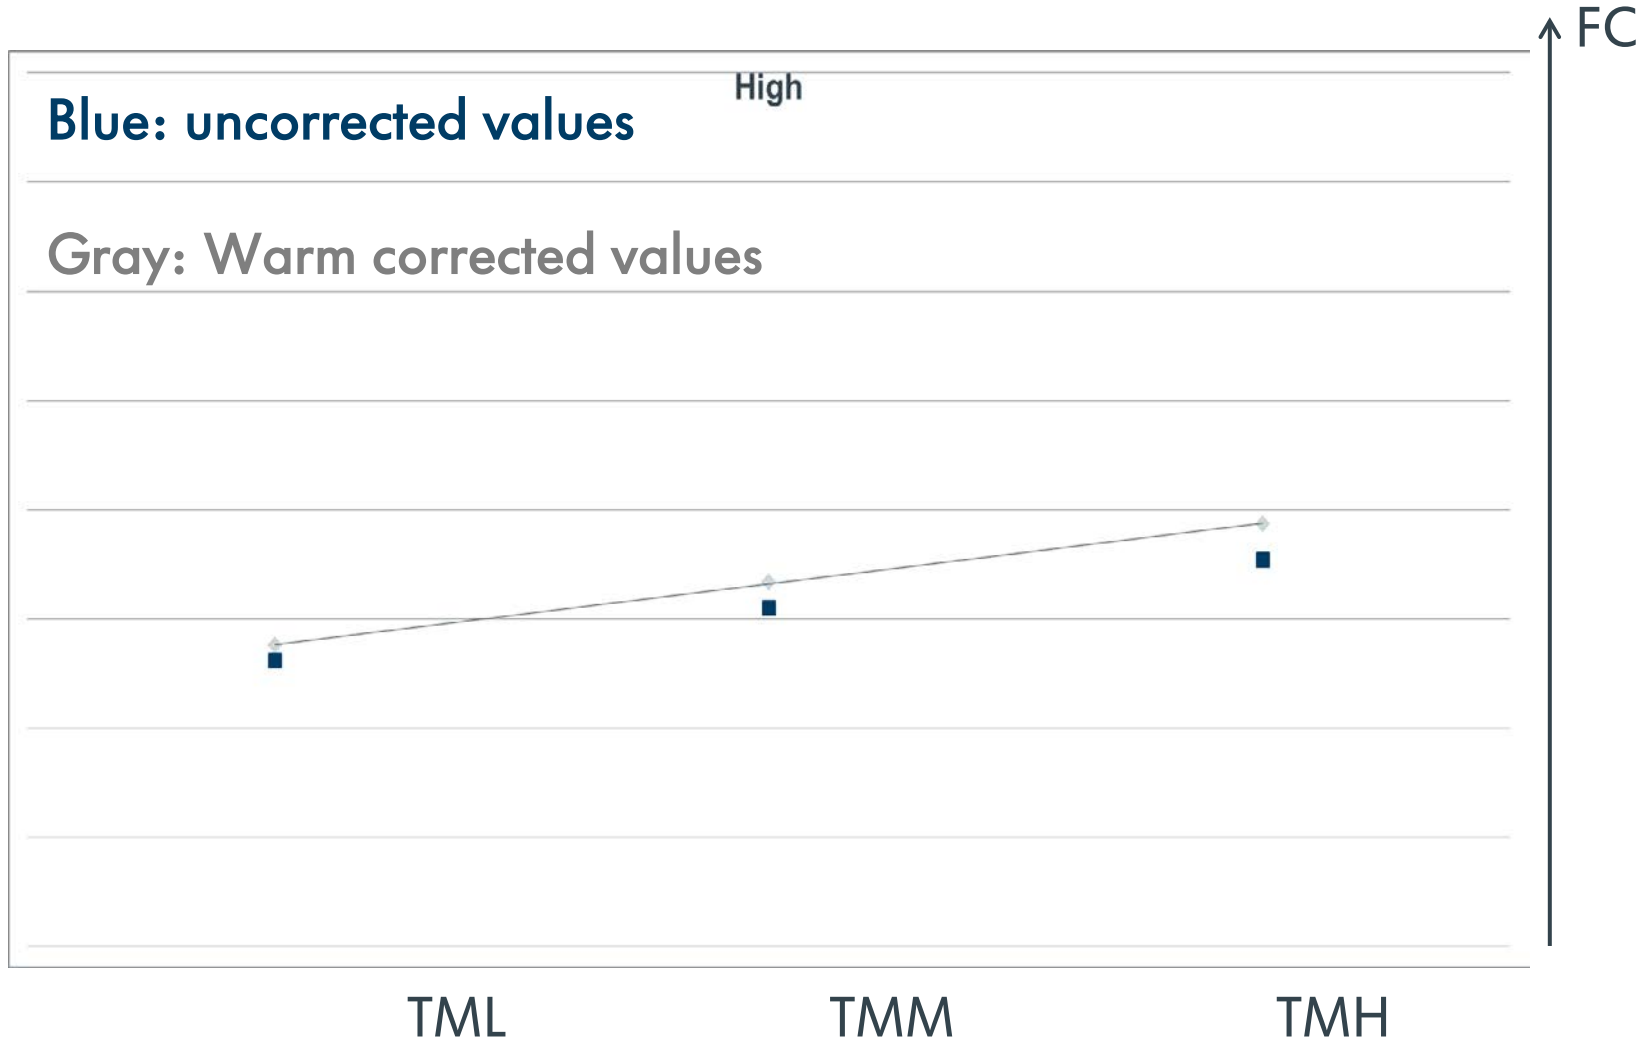

RCB correction

Corrected mid phase values → simulation results

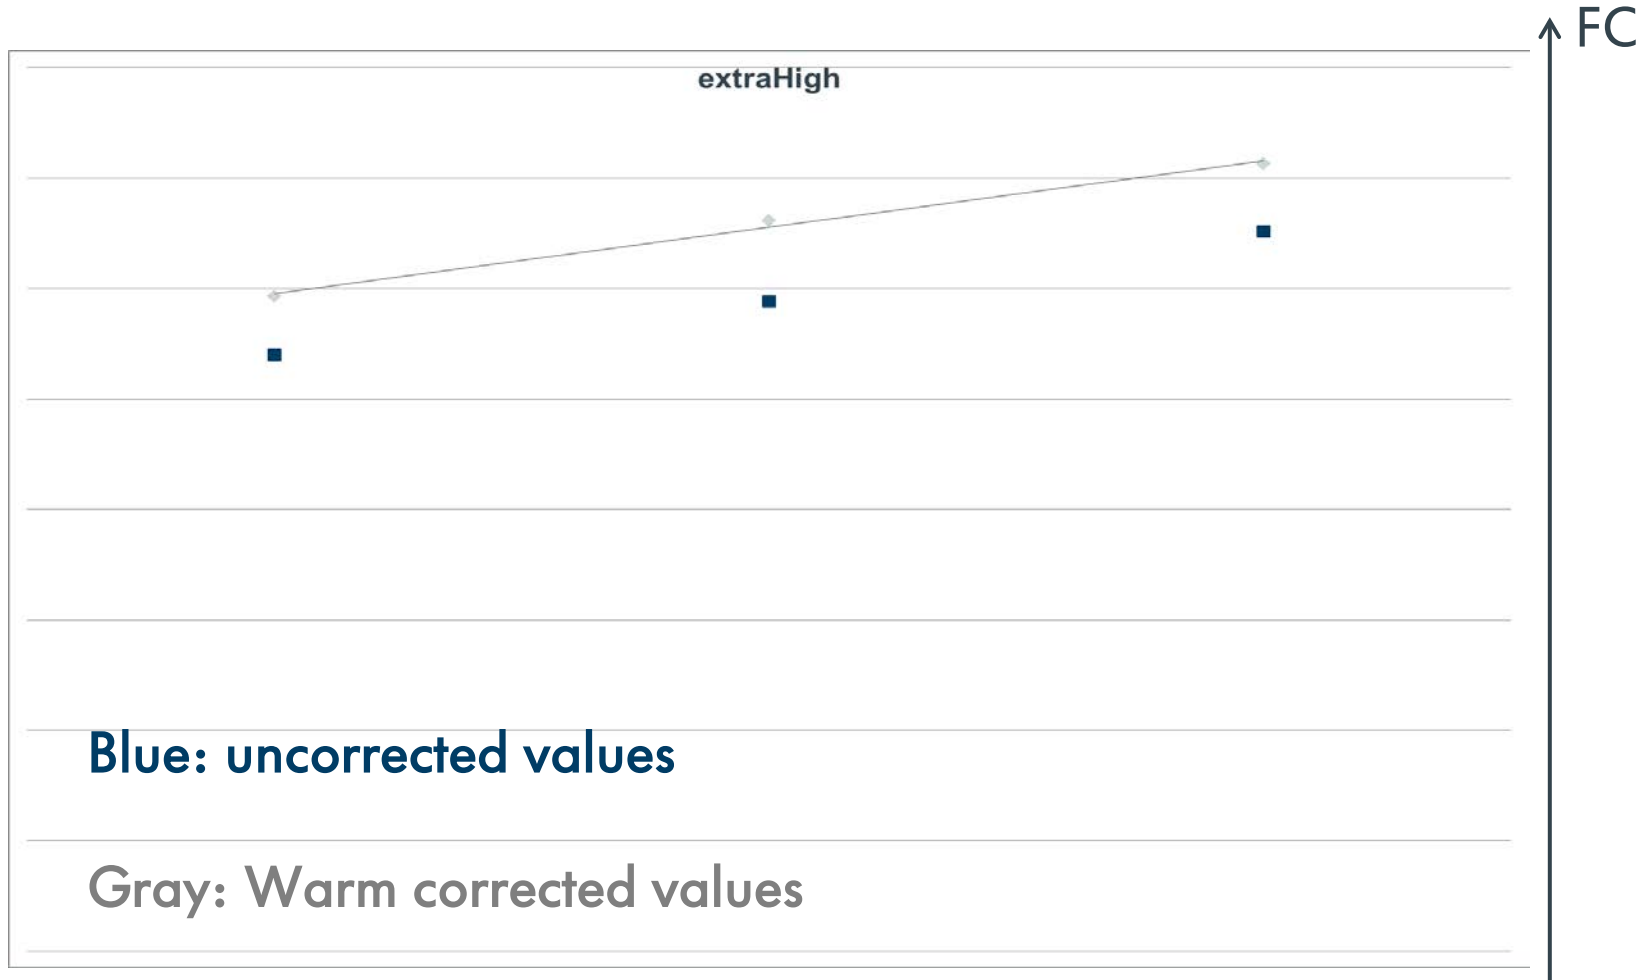

RCB correction

Corrected high phase values → simulation results

RCB correction

Corrected extraHigh phase values → simulation results

Blue: uncorrected values

Gray: Warm corrected values
