

### 5<sup>th</sup> ADS IWG Session Advisory

In light of recent events, crowds of citizens have been gathering in Seoul to express their views. These demonstrations are likely to continue into next week during the time of the ADS IWG session. The demonstration area is approximately 350 meters north of our meeting location with the protests centered around Gwanghwamun Square, approximately 700 meters away. Our hosts do not expect the protests to interfere with our meeting; however, noise from the demonstrations might be audible in the meeting room.

**Our hosts strongly urge participants to avoid the protest area and all contact with protesters.**
