

ADS Feature type definitions

See [ADS-03-13](#) and [ADS-04-24](#) for original proposals and examples

Option 1

3.3.1. “ADS feature of type 1 (ADSF-1)” means an ADS feature which includes an ADS fallback response requiring a fallback user.

3.3.2. “ADS feature of type 2 (ADSF-2)” means an ADS feature which does not include an ADS fallback response requiring a fallback user.

Option 2

3.3.1. “ADS feature of Level 3” means an ADS feature which includes an ADS fallback response requiring a fallback user.

3.3.2. “ADS feature of Level 4” means an ADS feature which does not include an ADS fallback response requiring a fallback user.
