Dear Bolennarth,

yes, I think Düsseldorf is the best choice.

By Taxi, to Essen City 30 km (30 minutes), to meeting location 37 km (40 minutes).

Alternatively:

To Essen City it is possible to use a train (S1 direction Dortmund or RE1 or RE6). Essen main station is directly in the city core. (www.vrr.de)

From Essen City (main station) to the meeting location you can use the bus 146 (direction and exit "Wackenberg"). Total time, I don't know!

kindly regards,
Werner Conrads.

Please note:

Unfortunately, in the immediate vicinity of the conference venue are no hotels available. The proposed selection of hotels focused on the area of downtown Essen. (There is also reserved a restaurant for the evening of the 20th.)

For the transfer between hotel and conference venue, we recommend a taxi or car pooling or something like that. The general traffic situation in the area of Essen, and the parking situation in the field of the Institute of Vehicle Technology is currently strained by lots of construction right.
