

Information provision to users who can perform the role of drivers

5.2.4.1. For the ADS users who can perform the role of drivers, means shall be provided that facilitates user understanding of the functionality and operation of the system.

5.2.4.1.1 An operational description of the ADS features, capabilities, and limitations shall be provided (the information shall also refer to specific use cases and/or ODD).

5.2.4.1.2 Instructions for the activation and deactivation of the ADS shall be provided, with clear explanations of the distinctions between user-initiated deactivation and system-initiated deactivation where applicable.

5.2.4.1.3 A description of the transitions of user roles and the procedure for those transitions, for example, reversion to manual driving following deactivation of the ADS feature shall be provided.

5.2.4.1.4 Any expectations on the fallback user to be ready to resume the DDT upon request shall be explained.

5.2.4.1.5 A general overview of non-driving-related activities (NDRA) allowed when an ADS feature is active shall be provided to users who can perform the role of driver.

5.2.4.1.6 Information related to the ADS feature(s)' signals shall be provided, covering e.g.:

- (i) Visual signals
- (ii) Acoustic signals
- (iii) Haptic signals

5.2.4.1.7 Information on possible changes in the performance of the DDT by the ADS features following a failure of the ADS shall be provided.

5.2.4.1.8 Information on how the ADS feature responds to inputs by the user into controls provided for manual driving (e.g., steering, service brake, parking brake, accelerator, lighting), if they are available, shall be provided.

5.2.4.1.9 Information on any additional safety precautions in using an ADS feature to be taken by the user shall be provided.

Commented [OC1]: Language copied from 5.2.4.4 in ADS-06-04r1.
