WP.29 expert groups on regulatory fitness for ADS

Summary of Change (25 words or less)

Non-DDT: safety case and safety risks to passengers

Reason for Change (Justification)

This addition ensures that the safety case documents the measures taken by the manufacturer to alleviate safety risks to vehicle users before and while the vehicle is in motion (fastening safety belts, remaining seated, etc.) These measures can be carried out by the ADS, vehicle users (on-board or remote), etc. The requirement goes together with 5.2.4.3.

Location

6.3.1.32.

Original text

N/A

Revised text

The safety case shall include a list of safety risks and a description of how they are managed for all target users and passengers, before and after initiating vehicle motion.
