+1-202-923-1215 (mobile: call or text)

Josh Cota, National Client Relations Manager at Mecanica Scientific Services

[jcota@mecanicacorp.com](mailto:jcota@mecanicacorp.com)

## Getting There

### **By Air:**

[Los Angeles International Airport \(LAX\)](#) is about a 52-mile, 1 hour drive to the south and is the best choice for those traveling internationally. [Santa Barbara Airport \(SBA\)](#) is about a 60-mile, hour drive to the north and is an option for those traveling within the United States. SBA has quite a bit of service by the big American carriers including Alaska, American, Delta, United, and Southwest Airlines. And SBA is a much easier airport to navigate compared to LAX. Our hosts note that SBA is a beautiful airport, too!

### **By Car:**

Unfortunately, public transit isn't an option. **Renting a car is recommended.**

## Accommodations
