

New JASiC proposal on abrasion limit values

37th TF TA
2nd Sep 2025

JAPAN AUTOMOBILE STANDARDS INTERNATIONALIZATION CENTER

		Stage 1	Stage 2
Normal		1.25	1.15
Snow		1.25	1.15
Sub Cluster	3PMSF	+0.1	+0.1
	XL	+0.1	+0.1
	UHP	+0.1	+0.1
	LI<77	+0.1	+0.1
COP		+0.25*	
Application date	New type	July 2028	July 2033
	All type	July 2030	July 2035

*The previously proposed value of 0.20 was calculated based on the measurement uncertainty of the drum test method from the COVA test results and estimates.

To adapt both the vehicle test method and the drum test method, estimating from the standard deviation of the vehicle test method from the COVA test, 0.25 could be considered better.
