

28th International Technical Conference on the Enhanced Safety of Vehicles (ESV)

May 12-15, 2026 | Exhibition Place | Toronto, Canada

Advancing Innovation: Technologies for Safer Vehicles

Join us for the world's leading event on vehicle safety.

This international event co-hosted by the U.S. Department of Transportation's National Highway Traffic Safety Administration and Transport Canada, brings together global leaders, experts and innovators to advance motor vehicle safety through the latest achievements in technology.

The ESV Conference is the premier U.S. DOT-sponsored vehicle safety conference. ESV has led the way for more than 50 years, driving breakthrough ideas, showcasing cutting-edge technologies, and fostering international collaboration in vehicle safety research.

A feature of every ESV conference is its robust technical program, featuring presentations from global experts at the forefront of vehicle safety advancements. The 2026 event will offer dynamic exhibits; ride and drive demonstrations; unique technical tours; plenary, special and technical sessions; and more.

Save the date, be part of this dynamic event and join us in helping reduce motor vehicle-related fatalities and injuries worldwide.
