

TSG Proposal/clarification 59th IG meeting

On behalf of TSG
Tommy Pettersson

Present (ECE/TRANS/WP.29/2016/38)

6.6.4.1.6.2. Without the anti-rotation device and without the shoulder strap positioner in use, unless a mechanism is provided to prevent incorrect use of the anti-rotation device and/or the shoulder strap positioner.

Proposal

6.6.4.1.6.2. Without the anti-rotation device and without the shoulder strap positioner in use, unless a visual [or/and] an audible warning signal mechanism is provided to prevent incorrect use of the anti-rotation device and/or the shoulder strap positioner.

Information

i-Size ECRS were approved with a single visual signal

Present Rev1 IWGCRS 59th

To be split in two paragraphs

6.6.4.1.6.2. Without the anti-rotation device and/or without the shoulder strap positioner in use, unless:

- a mechanism or
 - a visual and an audible warning signal
- is provided to prevent incorrect use of the anti-rotation device and/or the shoulder strap positioner.
