TSG Proposal/clarification
59th IG meeting

On behalf of TSG
Tommy Pettersson
6.6.4.1.6.2. Without the anti-rotation device and without the shoulder strap positioner in use, unless a mechanism is provided to prevent incorrect use of the anti-rotation device and/or the shoulder strap positioner.
Proposal

6.6.4.1.6.2. Without the anti-rotation device and without the shoulder strap positioner in use, unless a visual [or/and] an audible warning signal mechanism is provided to prevent incorrect use of the anti-rotation device and/or the shoulder strap positioner.
i-Size ECRS were approved with a single visual signal
