Summary of Change (25 words or less)

Clarification of text in 5/7.3.1.9

Reason for Change (Justification)

5/7.3.1.9 and 5/7.3.1.10 were originally in the same paragraph. We had split them to distinguish between ADS users and other road users but did not maintain alignment in the text between the two during the split leading to 5/7.3.1.9 to be somewhat confusing. The proposal is to copy “and the nature of their interactions” used in \*.10 to \*.9.

Without this addition, the paragraph would not give insight into safety – we are interested in the interactions with those categories of other road users, not just the categories themselves.
