Background information

Interpretation (What) vs Guidance (How)

- *Topics for “Interpretation” to explain the **meaning and scope of the text** of the ADS Regulation(s) in order to clarify how the Regulation(s) could be understood in practical terms, especially where the wording may be open to multiple readings. It is mainly based on the notes and discussion held in the ADS-Groups.*

*Note: **the interpretation (what) is unique**, and it can include examples (**how**) which are context dependently.*

- *Topics for “Guidance” provides practical instructions or recommended methods for complying with the Regulation to help the target audience apply the Regulation correctly and efficiently in practice (e.g., Acceptable Means of Compliance)*

We do start with the topics for interpretation (highest priority), then we move to the topics for guidance
