Objet: 3rd session of IWG VGL - Paris. Vehicle test
Pièces jointes: Measuring procedure of load and inclination.doc; Results of measurements.xls

Dear IWG VGL experts,

Attached you will find description of relatively simple test for aiming change in dependence on vehicle loading. It will be also accessible on IWG VGL website.

It would be very helpful for IWG VGL if you will be so kind to arrange and perform such tests for one or some M and/or N vehicles.

Then please send Excel file to Tomasz Targosiński (tomasz.targosinski@its.waw.pl) and to Françoise Silvani (francoise.silvani@renault.com).

Forwarding the results **till 15 of July 2016** will be most appreciated.

Kind regards

Tomasz Targosiński
IWG VGL Chairman
