

INVITATION TO THE 20th MEETING OF THE GRPE INFORMAL WORKING GROUP ON ELECTRIC VEHICLES AND THE ENVIRONMENT (EVE)

On invitation of the EVE leadership, the 20th informal working group meeting on Electric Vehicles and the Environment will take place via teleconference and WebEx:

- Meeting location: Teleconference & WebEx
- July 26th, 2016 from 11:00 - 14:30 CEST

The two main objectives of the 20th EVE IWG meeting will be:

- To review the report on Part A of the new EVE mandate and finalize group consensus on recommendations to WP.29
- To continue refinement of the plan to develop a GTR for determining the power of EVs

Particular focus will be paid to the recommendations for the method of stating energy consumption and the battery performance/durability work items, because the group does not appear to have consensus on recommendations for these topics at this stage. A draft version of the report can already be found as EVE-20-01e at the link below. You are asked to review and send along any comments in writing ahead of the meeting, if possible.

If you plan to participate in the meeting, we ask you to inform the EVE Secretary (andrew.giallonardo@canada.ca) by **July 19th, 2016**.

Teleconference and WebEx details will be available in the EVE-20 agenda (EVE-20-03e).

A finalized agenda and documents for the meeting will be uploaded to the informal working group webpage prior to the meeting as they become available:
