

WLTP Sub Group EV Phase 2	
Date	Tuesday, September 27 th 2016
Time	09:00 to 11:00 CET
Location	Web-Audio-Meeting
Title	WLTP Sub Group EV web-audio-meeting Preparation of SG EV f-2-f meeting in The Hague (October 4 th)

Agenda

1	Report from IWG EVE	
	- Status: System Power Determination	
<p>There will be a report next about the status of the activities on this topic within the EVE IWG. Presentation will be prepared and done by Matthias Naegeli and sent by the end of this week.</p> <p>Status is that the EVE IWG group is asking for a mandate from WP 29 in November to further discuss this topic and develop a harmonized procedure for the purposes of the WLTP. In the presentation will be shown: Next steps, time line, next meetings etc.</p>		
	- Status: Battery performance and durability	
<p>Status report will present the position of the EVE group.</p> <ul style="list-style-type: none"> - Nothing changed since last meetings. - No activities since last meeting and no progress expected until the point in time after WP 29 in November. <p>Presentation/Status Report will be prepared by Matthias Naegeli and sent by the end of this week.</p>		
2	Report from IWG WLTP task forces	
	- TF EVAP	
<p>TF meeting on Friday this week. Have made progress. Expect short update from the TF at SG EV meeting. Short update will be either done by the EVAP task force leader or (if not possible) a person which is able to give a short status</p>		
	- TF Durability	
<p>No kick-off for the TF yet. No activity. Expect status update on WLTP IWG 16. Not clear about lead of the TF, Commission or TUV. Need to be clarified. Could be Marotta-san. SG EV focus on battery durability. ToR presented in Paris. Elena Paffumi will ask EC for an update and provide information regarding EC in the SG EV f-2-f meeting.</p>		
	- TF Low and Realistic Winter Temperature (Supplemental Test)	
<p>ToR has been developed. Need collaboration with SG EV. TF will summarize the input from stakeholders for ToR. Expect update on meeting. SG EV will discuss this topic during next week's meeting and provide input/feedback to TF after meeting next week.</p>		
	- TF Normalization	
<p>No new information from the TF regarding normalization. For EV the need for system power is the open issue. Regarding normalization does not work for HEV, expect proposal later in beginning next year.</p>		
	- TF Gearshift/Cycle	
<p>New information from TF for gearshift. Proposal from JRC regarding safety margin to adjust calculation. n_mindrive still on the agenda but TF will ask WLTP IWG for mandate.</p>		
	- TF OBD	
<p>No new information regarding TF. A questionnaire was sent out. Matthias Naegeli will report on Tuesday if there had been any activities up to now.</p>		
	- TF In-Service	
<p>No new information from TF. Elena Paffumi will look for information until next week. According to T&E EC was going to start the TF in September but there is no information of this yet.</p>		
3	Status and Update on SG EV topics	
	- Normalization	
<p>No update for this meeting, plan beginning of next year.</p>		
	- OVC-FCHVs – Test Procedure	
<p>Presentation from Renault in June. JP scrutiny the proposal. JP have questions and comments, no clear position yet. Will be discussed further next Tuesday.</p>		
	- Conformity of Production	
<p>Proposal from EU presented in June. One issue regarding range. Will be discussed next week.</p>		
	- Durability	
<p>Discussed in the TF. In SG EV already discussed. Earlier in the agenda.</p>		
	- Low and realistic winter temperature (Supplemental Test)	
<p>Discussed in the TF. In SG EV already discussed. Earlier in the agenda.</p>		
4	Drafting Issues	
	- Amendments to Phase 1b	
	- Phase 2	
<p>Table sent earlier. Regarding post processing was inserted as phase 2 in GTR. Latest version includes changes. Equation with different wording will discuss next week meeting.</p>
