

## Status of Activity List Items

Clear Status	
Under Discussion	
Activity List Item (please refer to document GTR9-C-07r1)	Status
1. Review and consideration of remaining items	
a) Review of Flex-TEG activities to reach common understanding	Clear Status
b) Assessment of biofidelity (comparison of FlexPLI and EEVC lower legform impactor)	Under Discussion ( inprogress see minutes)
c) Assessment of benefit and costs (injury reduction, additional benefit compared to EEVC lower legform impactor)	Under Discussion ( inprogress see minutes)
d) Technical specifications (drawings) and PADI (user manual)	Clear Status
e) Evaluation of durability	Under Discussion ( inprogress see minutes)
f) Test procedure (rebound phase, best practice, velocity measurement etc.)	Under Discussion ( inprogress see minutes)
g) Certification tests	Clear Status
h) Review and exchange of test results	Under Discussion ( inprogress see minutes)
i) Evaluation of reproducibility and repeatability	Under Discussion ( inprogress see minutes)
j) Evaluate and decide on performance / injury criteria and threshold values	Under Discussion ( inprogress see minutes)
k) Evaluation of vehicle countermeasures (assessment of technical feasibility)	Under Discussion ( inprogress see minutes)
2. Develop a draft proposal to amend UN GTR No. 9 - Phase 2	Under Discussion ( inprogress see minutes)
3. Develop a complementary draft proposal to amend draft UN Regulation on Pedestrian Safety (including a recommendation for transitional provisions based on item 1).	Under Discussion ( inprogress see minutes)
