

1. APPLICATION / SCOPE

This global technical regulation shall apply to all Category 1-1 vehicles with a GVM exceeding 500 kg but not exceeding 4,500 kg; Category 1-2 vehicles with a Gross Vehicle Mass exceeding 500 kg but not exceeding 4,500 kg; and to Category 2 vehicles with a GVM exceeding 500 kg but not exceeding 4,500 kg¹. However, power driven vehicles of Category 1.2 and Category 2 are exempted where they meet the following conditions set out below:

- Where the angle, measured between a horizontal line taken through the centre of the front axle and a line taken from the centre of the front axle through the R-point of the driver's seat is not less than 22 degrees and:

- Where the longitudinal distance from the R-point to the rear axle is greater than or equal to 1.3 times that of the longitudinal distance from the centre line of the front axle to the R-point.

Footnote

1 A contracting party may restrict application of the requirements in its domestic legislation if it decides that such restriction is appropriate.
