

Drafting Coordinator Report

IWG # 19

Geneva, June 2017

1. WLTP GTR

1. Overview of this presentation
2. Future drafting subjects
3. A brief history of the GTR
4. A timetable of recent and future events

1. WLTP GTR

- Amendment 2 of the WLTP GTR, dated October 28, 2016, was the reference document for work during 2017.
- Two drafting meetings were held, one in Den Haag during IWG #16 in September 2016 and an additional one on the 2nd of March 2017 in Brussels.
- The results of these meetings and from other sources were incorporated into a working document.
- The deadline for submission of this working document was two weeks after the Brussels Drafting Subgroup meeting, namely, March 13. This deadline was met.
- The UNECE raised no questions regarding the actual GTR and it was quickly published.
- This working document was published as Amendment 3 of the WTLTP GTR on March 28 as [ECE/TRANS/WP.29/GRPE/2017/9](#).

1. WLTP GTR (cont'd)

- Since then, there have been some Task Force and IWG meetings producing proposed changes to Amendment 3 of the GTR. See Informal Document WLTP-19-15e.
- Amendment 3 including the additional amendments proposed today (WLTP-19-15e) will serve as the reference document for future GTR 15 work in 2017.

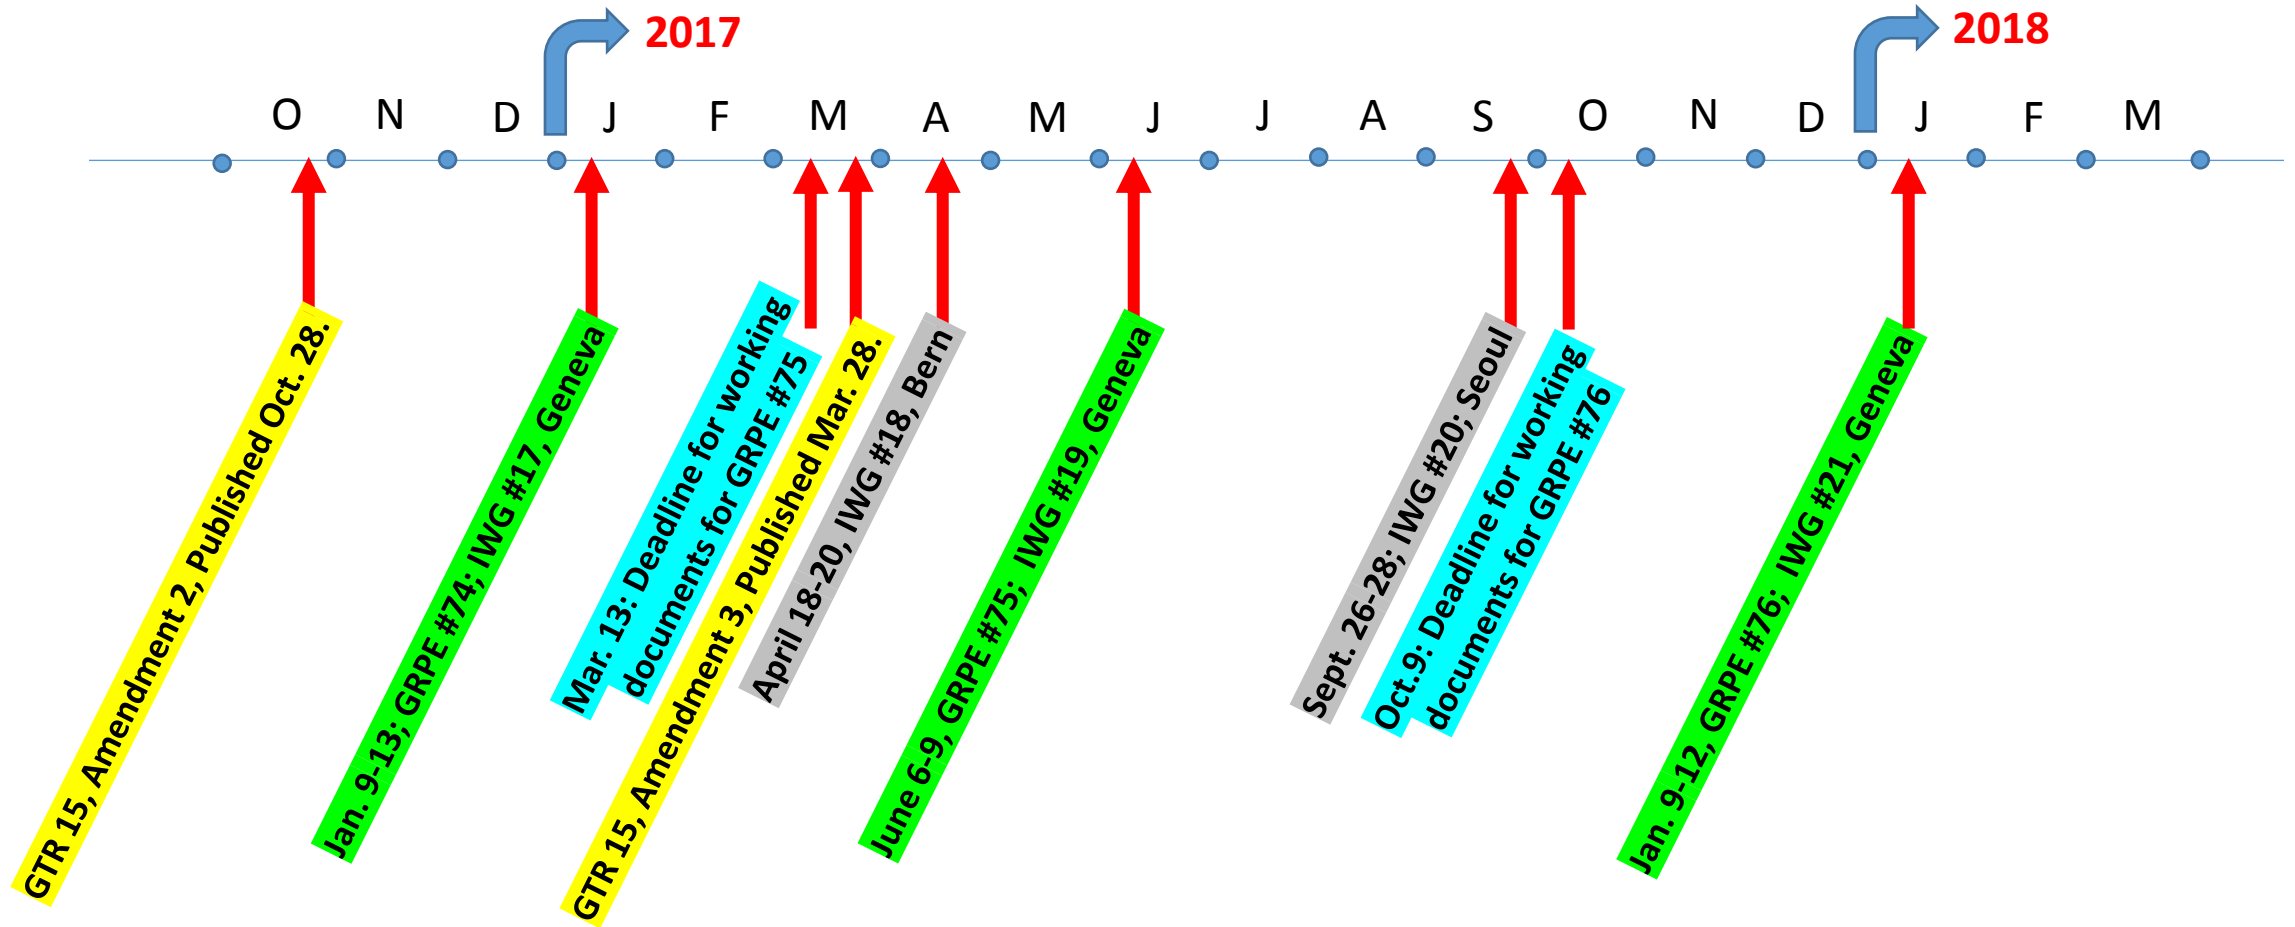

2. Future drafting work

- Consistency in the use of the terms *accuracy*, *precision*, *resolution* and *tolerance*.
- Paragraph 4.2.1.1.2. in Annex 4 "Requirements for test vehicle selection/Using an interpolation method" regarding the phraseology that a body shape cannot be fitted to a test vehicle. The paragraph requires clearing up.
- Modifications resulting from ongoing Task Force work.
- Roller radius correction: is the roller radius being corrected or the radius of the tires on the roller?
- Define C1 and C2 in the GTR?
