

Next Actions of Dual-Axis Dyno. TF

proposed by Japan

Proposed Actions of Dual-Axis Dyno. TF

items	Step_1 (submit working document to 2019 January session)	moratorium	Step_2 (when ready)
Restrain method	Discuss based on JSAE study, then modify accordingly if agreed.	Practical experience in EU	Modify, if necessary
Mandatory requirement	Not apply at this stage	<ul style="list-style-type: none"> ➤ Justification ➤ Infrastructure 	Re-visit its necessity
UNR	CP option 		?

set moratorium stage for further consideration

Mandatory requirement for Type I test has a huge impact on other testing lab. and daily lab. operation. Need consideration as a series of whole process.
