

**JRC comments and  
questions in advance  
EVS1540-A02 China  
EVS GTR IWG Session #15  
Beijing, March 2018**

<b>Document</b>	<b>Title</b>	<b>Author</b>
EVS1540-A02	Update of EV Standards in China	Chen Chunmei China

**Comment – Thank you for the interesting overview.**

- 1. Questions on slide 7: For the overcharge test it is stated that the 'no leakage' requirement was deleted. What is the rationale for deleting this requirement?**
- 2. Can you explain the rationale for having requirements related to leakage, venting and rupture or not for the other tests (e.g. temperature cycling)?**
