

Type IV carbon fiber conformable H2 tank  
70MPa

- Exclusive technology transfer May 2018
- Continuity of development efforts
- Continuous participation at the UNGTR 13
- Focus on Manufacturing and Vehicle Integration

	Ongoing effort	Future challenges
UNGTR 13	Passing hydraulic and pneumatic tests.	Vehicle integration.
CSA/ANSI NGV2/HGV2	Conformable tank definition. Introducing smaller projectile in penetration test.	HGV2 participation.
SAE J2601	Fueling / defueling protocols adaptability for conformable tanks.	Ambient temperature fueling.

Happy to participate in the UNGTR13 committee and looking forward to collaborate with experts!
