Transposition of GTR 1: state of play at the end of 2005 (Report according to article 7(4) of the 1998 Agreement)

The European Commission has, at the end of 2004, suggested a modification of Regulation 11 that aims at the incorporation of GTR 1 into the law of most of the contracting parties of the 1958 Agreement by document GRSP/2005/9.

For two reasons the adoption of this document by GRSG is still pending:

- There is still a discussion ongoing with regard to the scope of Regulation 11: Are N2 and N3 to be included and how?
- The U.S. suggest modifications to the GTR 1. These minor modifications should, according to the view of the GRSP chairman and many experts, be incorporated into document GRSP/2005/9. However, there is still no text proposal and, subsequently, no agreement with regard to these modifications.
