to the United Nations and the
Conference on Disarmament

Gouvernement du Canada
Mission permanente du Canada
auprès des Nations Unies et de
la Conférence du désarmement

Note No.: GENEV-4477

Reference: Canada's status report with respect to the global technical regulations (GTR) no. 2, 4, 5, 10, 11, 17, and 18, and their amendments

The Permanent Mission of Canada to the Office of the United Nations at Geneva presents its compliments to the United Nations Economic Commission for Europe and has the honour to submit to the Inland Transport Committee Canada's status report provided in accordance with Article 7.4 of the Agreement Concerning the Establishing of Global Technical Regulations for Wheeled Vehicles, Equipment and Parts which can be Fitted and/or be Used on Wheeled Vehicles, with respect to the global technical regulations (GTR) no. 2, 4, 5, 10, 11, 17, and 18, and their amendments.

The Permanent Mission of Canada to the Office of the United Nations at Geneva avails itself of this opportunity to renew to the United Nations Economic Commission for Europe the assurances of its highest consideration.

Geneva, 6 March 2018.

**Status Report on Implementation of Emission-Related UN Global Technical Regulations in Canada
Submitted in Accordance with Article 7 – paragraph 7.4 of the 1998 Global Agreement**

As of February 16, 2018

UN GTR No.	UN GTR Title	Implementation of the UN GTR provisions in the national legislation	Date of mandatory application of UN GTR provisions	Remark
<p align="center">2</p> <p>Amend. 1 to UN GTR No. 2</p> <p>Amend. 2 to UN GTR No. 2</p> <p>Amend. 3 to UN GTR No. 2</p>	<p>Measurement procedure for two-wheeled motorcycles equipped with a positive or compression ignition engine with regard to the emission of gaseous pollutants, CO₂ emissions and fuel consumption (WMTC)</p>	<p>Canada's air pollutant exhaust emission standards for on-road motorcycles are set out in the <i>On-Road Vehicle and Engine Emission Regulations</i> under the <i>Canadian Environmental Protection Act, 1999</i>. The applicable standards and test procedures are currently aligned with those of the U.S. Environmental Protection Agency.</p> <p>Canada plans to complete a review of the test data to establish an appropriate correlation between its current emission standards based on the U.S test procedures and equivalent limits based on the procedures set out in the GTR No. 2. The applicable standards and test procedures are currently aligned with those of the U.S. Environmental Protection Agency.</p>	<p>Not established</p>	<p>Canada will continue to update the Secretary General on an annual basis as to the status of this GTR and amendments.</p>

UN GTR No.	UN GTR Title	Implementation of the UN GTR provisions in the national legislation	Date of mandatory application of UN GTR provisions	Remark
UN GTR No. 4		Canada plans to complete a review of the test data to establish an appropriate correlation between its current emission standards based on the U.S test procedures and equivalent limits based on the procedures set out in the GTR No. 4. Once a review is completed, Canada plans to propose amendments to its regulations to implement the provisions of GTR No. 4.		
5 Amend. 1 to UN GTR No. 5	Technical requirements for on-board diagnostic systems (OBD) for road vehicle (WWH-OBD)	Canada's standards for on-board diagnostic systems on on-road heavy-duty vehicles are set out in the <i>On-Road Vehicle and Engine Emission Regulation Act, 1999</i> . The applicable standards and test procedures are currently aligned with those of the U.S. Environmental Protection Agency. Canada plans to complete a review of the on-board diagnostic systems requirements to establish an appropriate correlation between its current standards based on the U.S test procedures and equivalent limits this is completed, Canada plans to propose amendments to its regulations to implement the provisions of GTR No. 5.	Not established	Canada will continue to update the Secretary General on an annual basis as to the status of this GTR and amendments.
10	Off-cycle emissions (OCE)	Canada's emission standards addressing off-cycle emissions for on-road heavy-duty vehicles are set out in the <i>On-Road Vehicle and Engine Emission Regulations</i> under the <i>Canadian Environmental Protection Act, 1999</i> . The applicable standards and test procedures are currently aligned with those of the U.S. Environmental Protection Agency.	Not established	Canada will continue to update the Secretary General on an annual basis as to the status of this GTR.

UN GTR No.	UN GTR Title	Implementation of the UN GTR provisions in the national legislation	Date of mandatory application of UN GTR provisions	Remark
11	Test procedure for compression-ignition engines to be installed in agricultural and forestry tractors and in non-road mobile machinery with regard to the emissions of pollutants by the engine (NRMIM)	<p>Canada plans to complete a review of the test data to establish an appropriate correlation between its current emission test procedures and equivalent limits based on the procedures set out in the GTR No. 10. Once this is completed, Canada plans to propose amendments to its regulations to implement the provisions of GTR No. 10.</p> <p>Canada's air pollutant emissions standards that cover Forestry Tractors and Non-Road Mobile Machinery are set out in the <i>Off-Road Compression-Ignition Engine Emission Regulations</i> under the <i>Canadian Environmental Protection Act, 1999</i>. The applicable standards and test procedures are currently aligned with those of the U.S. Environmental Protection Agency.</p> <p>Canada plans to complete a review of the test data to establish an appropriate correlation between its current emission test procedures and equivalent limits based on the procedures set out in the GTR No. 11. Once this is completed, Canada plans to propose amendments to its regulations to implement the provisions of GTR No. 11.</p>	Not established	Canada will continue to update the Secretary General on an annual basis as to the status of this GTR.
17	Measurement procedure for two- or three-wheeled motor vehicles equipped with a combustion engine with regard to the crankcase and evaporative emissions.	<p>Canada's air pollutant evaporative emission standards for on-road motorcycles are set out in the <i>On-Road Vehicle and Engine Emission Regulations</i> under the <i>Canadian Environmental Protection Act, 1999</i>. The applicable standards and test procedures are currently aligned with those of the U.S. Environmental Protection Agency.</p> <p>Canada plans to complete a review of the test data to establish an appropriate correlation between its current emission standards based on the U.S test procedures and</p>	Not established	Canada will continue to update the Secretary General on an annual basis as to the status of this GTR.

		equivalent limits based on the procedures set out in the GTR No. 17. Once correlation work is completed, Canada plans to propose amendments to its regulations to implement the provisions of GTR No. 17.		
18	Measurement procedure for two- or three-wheeled motor vehicles with regard to on-board diagnostics	Canada regulations do not include requirements for on-board diagnostic systems for on-road motorcycles. Canada plans to assess the approach for moving forward with this GTR. Once this is completed, Canada plans to propose amendments to its regulations to implement the provisions of GTR No. 18.	Not established	Canada will continue to update the Secretary General on an annual basis as to the status of this GTR.
