

GRE IWG-SLR – Stage 2

GTB Contribution to the 24th SLR session 30 May-01 June 2018

This document provides a summary of the main points that, in the opinion of GTB, should be discussed and developed as part of the overall approach to the Stage 2- Step 1 Simplification

It is the result of a more detailed analysis of the content of SLR-22-01, presented by GTB to the 22nd SLR session in Shenzhen, China

Major Items for study		Regulations Affected	Input at the SLR meeting by GTB WG:
1	Fundamental discussion on the need for a definition of “Single Function” and “Apparent Surface”		
2	The approach to the Glare / Visibility compromise	RID	
3	Objective performance requirements to replace the “1000 lumen “ requirement for the passing beam headlamps equipped with LED light sources or modules	RID	
4	Comprehensive evaluation of the text of the new regulations to ensure that the technical requirements are performance based and have objective testing requirements	LSD RID RRD 48, 53, 74, 86	

Note: The Installation Regulations are the subject of the plan for Stage 2 Step 2 but it is necessary to work in parallel with Step 1
