(80<sup>h</sup> GRE, 23-26 October 2018,  
agenda item n(a))

**Task Force  
on Electro-Magnetic Compatibility  
(TF EMC)**

**Status report to GRE-80**  
**xday, xx. October 2018**

# TF EMC Status Report

- TF EMC had its 16th meeting on Monday, 8th of October 2018.
- TF EMC will report on the work, which led to the “**GRE/2018/43e** - (TF EMC) Proposal for the 06 series of amendments to Regulation No. 10 (Electromagnetic compatibility)” which was submitted by July 27th based on the consensus reached in the TF.
- TF EMC will present and explain the informal document no...
- TF EMC is asking for the adoption of this proposal including two final decisions to be done by GRE which could not be clarified by the TF EMC.
- TF EMC is asking to present the proposal of Regulation No. 10-06 to WP.29 for a publication in 2019.
- TF EMC will inform about the status of the proposals prepared by France and India and the topics, discussed at GRE-79 and additional information

# TF EMC Status Report – UN R10.06 Development

## Status of the work

- Because of the **technical changes** and the **updated TPs**, the decision was done to publish a **new series of UN R10**
- An update of the **TPs** were discussed and finally agreed by all parties
- The proposal, delivered **from India** about changes of **figures of motorcycles**, was implemented
- Several new proposals were submitted by France and UK and intensively discussed. Most of them were implemented in the document “GRE/2018/43e”.
- It was decided to implement updated definitions and figures taken from **CISPR12** regarding the test of charging systems
- More than 150 modification proposals were discussed
  - **Around 120 modifications were incorporated** in the working draft of UN R10.06
  - 28 of the proposals have been included in a roadmap for a UN R10.07 series
  - 2 proposals were not accepted due to a contradiction with international standards

## Topics to be decided by GRE 80 (1):

### Introduction of categories of agricultural vehicles

**France proposes to introduce the categories**

T for tractor

R for trailers

S for interchangeable towed equipment

**Justification:** Whereas the Commission delegated regulation (EU) 2015/208 « supplementing Regulation (EU) No 167/2013 of the European Parliament and of the Council with regard to vehicle functional safety requirements for the approval of agricultural and forestry vehicles “ Annex 15 part 9 **refer to R10.**

# TF EMC Status Report – UN R10.06 Development

## Topics to be decided by GRE 80 (1):

### Introduction of categories of agricultural vehicles

Paragraph 1.1., amend to read:

"1.1. Vehicles of categories L, M, N **[and]** O, **[T, R and S]**<sup>1</sup> with regard to electromagnetic compatibility;"

*Paragraph 3.1.8.*, amend to read:

"3.1.8. For vehicles of categories **[L]**, M, N ~~**[and]**~~ O, **[T, R and S]**, the vehicle manufacturer shall provide a statement of frequency bands, power levels, antenna positions and installation provisions for the installation of radio frequency transmitters (RF-transmitters), even if the vehicle is not equipped with an RF transmitter at time of type approval. This should cover all mobile radio services normally used in vehicles. This information shall be made publicly available following the type approval."

*Annex 6, paragraph 3.2.*, amend to read:

"3.2. For categories M, N, O, **[T, R and S]** vehicles according to ISO 11451-2."

# TF EMC Status Report – UN R10.06 Development

## Topics to be decided by GRE 80 (2):

### The paragraph 3.1.8 should apply for all categories of vehicles, defined in the scope

This means to add the categories

L for powered Two Wheelers

T for tractor

R for trailers

S for interchangeable towed equipment

*Paragraph 3.1.8., amend to read:*

"3.1.8. For vehicles of categories [L], M, N [~~and~~] O, [T, R and S], the vehicle manufacturer shall provide a statement of frequency bands, power levels, antenna positions and installation provisions for the installation of radio frequency transmitters (RF-transmitters), even if the vehicle is not equipped with an RF transmitter at time of type approval. This should cover all mobile radio services normally used in vehicles. This information shall be made publicly available following the type approval."

## Next Steps

- Supporting GRE and WP.29 regarding questions to the contents of the draft of UN R10-06
- Goal for the publication of UN R10-06 is September 1<sup>st</sup>, 2019
- The TF EMC will continue it's work:  
From end of 2018 TF EMC will work on the topics which were not mature for an R10-06 in order to launch either an amendment or a draft of a R10-07
