

Acceleration test

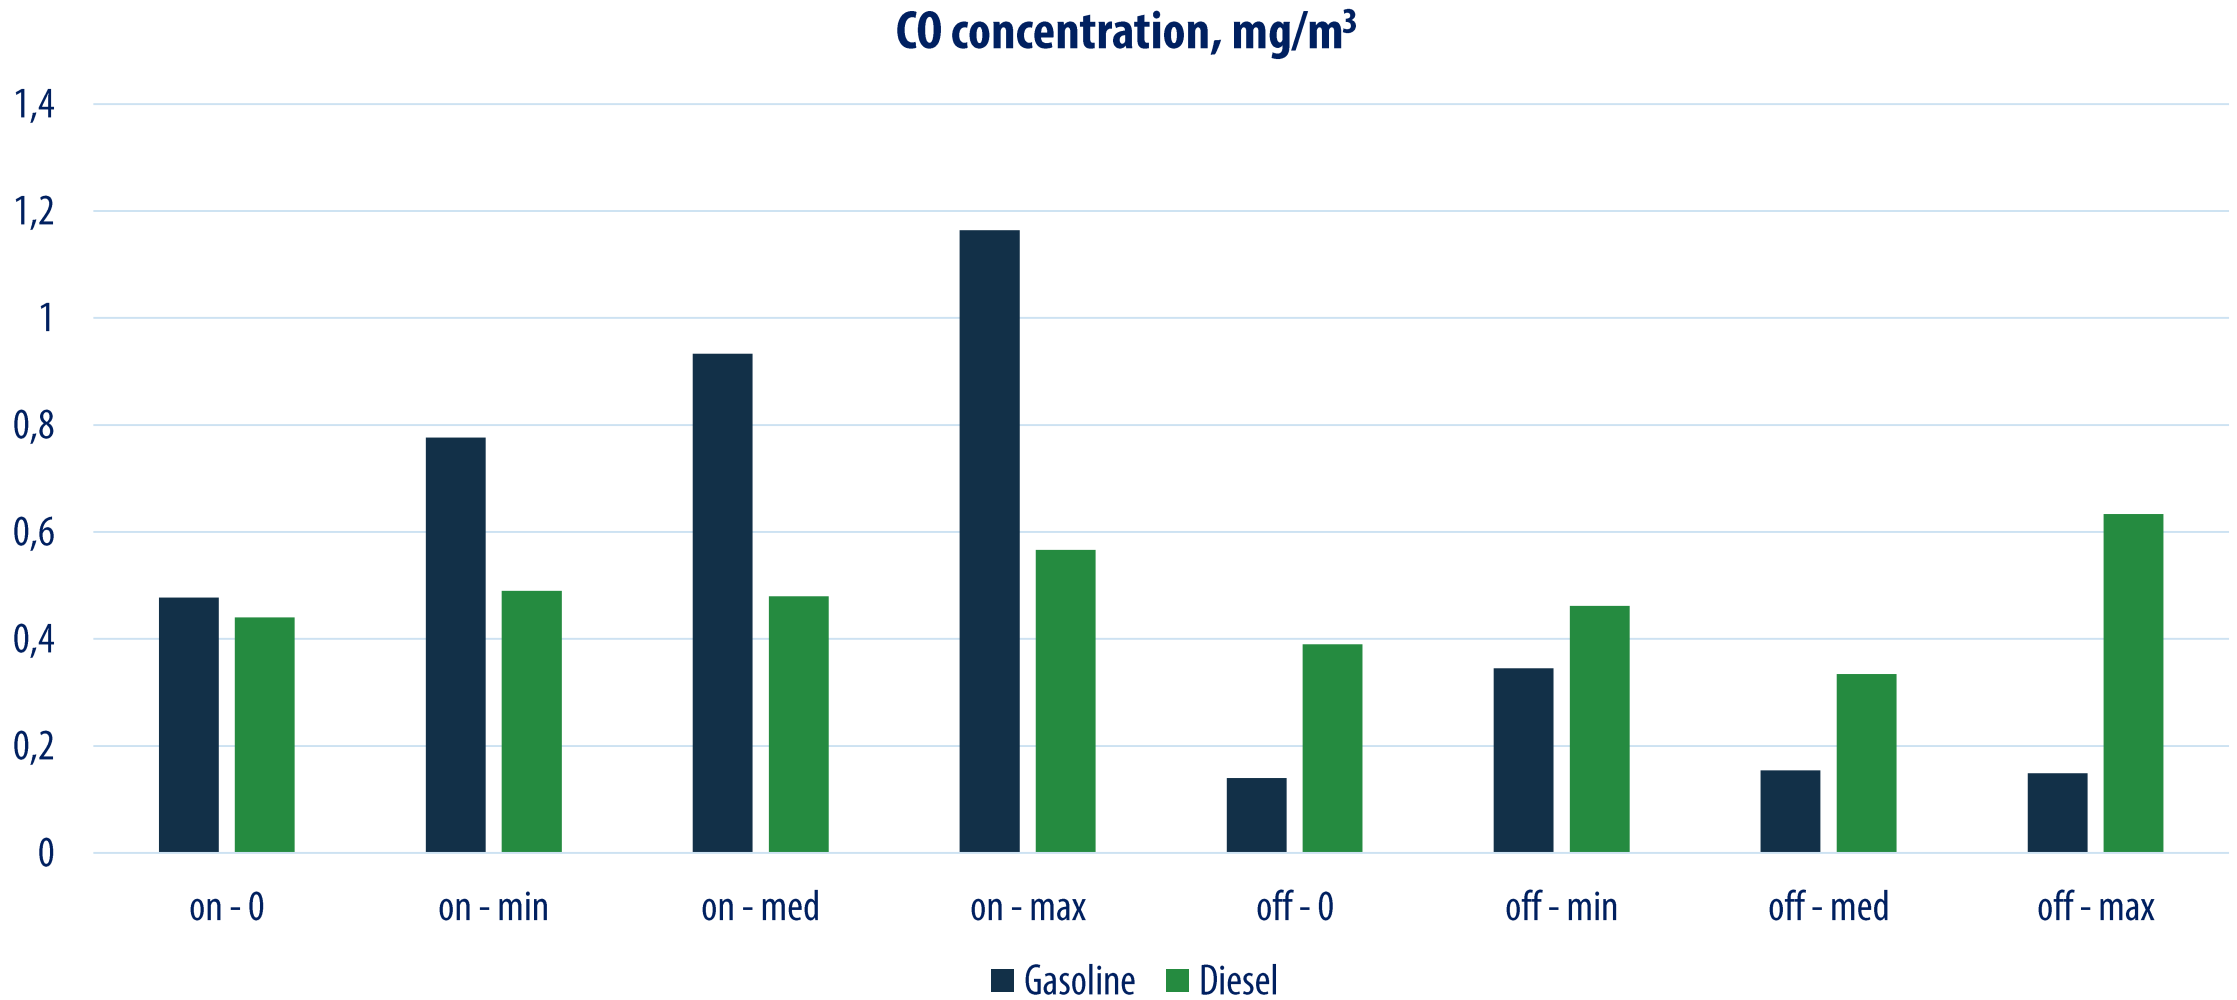

Andrey KOZLOV

Acceleration test procedure

Analysis of acceleration test date (CO concentration)

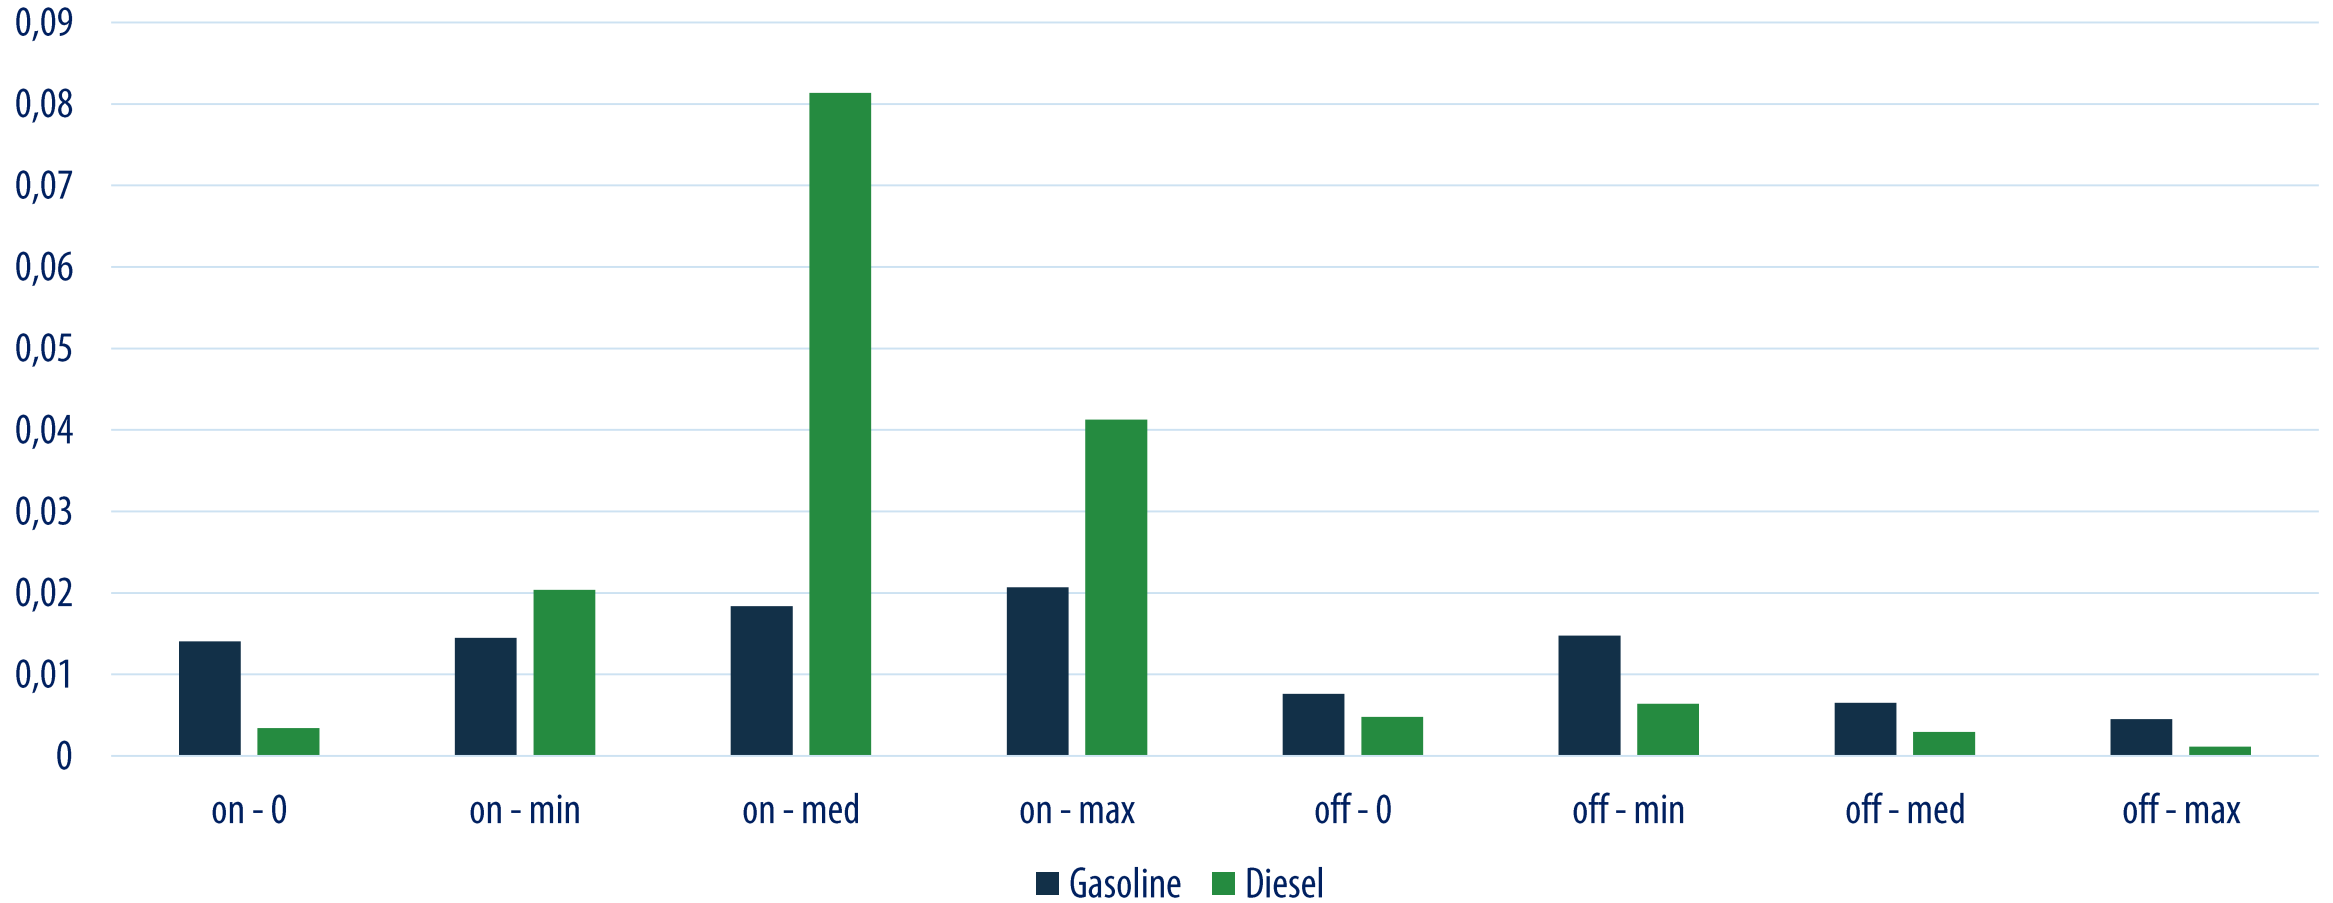

Air fan mode: 0-off., min, med, max
Recirculation mode: on, off

see VIAQ-10-07 and VIAQ-10-08 for details

Analysis of acceleration test date (NO concentration)

NO concentration, mg/m³

Air fan mode: 0-off., min, med, max
Recirculation mode: on, off

see VIAQ-10-07 and VIAQ-10-08 for details

Proposals for acceleration test

1. Include the acceleration/deceleration test to part 3 of M.R.3
2. HVAC mode:
 - ✓ recirculation is ON
 - ✓ ventilator speed is MAXIMAL
3. Discuss test procedure on the next meeting

Thank you for your attention!
