1. Labeling position.
2. Representation of consumer and administrative information, on R44 babycarriers combined with bases, to make up an i-Size approved product

CLEPA

Marianne Hynd, Newell Rubbermaid

Michael Grohspietsch, Britax Roemer

Erik Salters, Dorel

- i-Size Infant Carrier [system] has to fulfil all ECE[129] requirements
- Only the ECE[129] approval mark is visible [may be visible]

i-Size Label

Labeling│ i-Size Base

- i-Size Base
- Only the ECE[129] approval mark is visible [may be visible]

i-Size Label

CLEPA
European Association of
Automotive Suppliers

- Infant Carrier has to fulfil also ECE R44 requirements

- ECE 44 approval mark attached on the bottom

- Not visible if the Infant Carrier is connected to the base [to a consumer installing a child]

ECE 44 Label

Task

- Define solutions for clarity of information to consumers, when assessing an archetype babycarrier on a base.

Defintion Archetype "R44 Group 0+"

- Babycarrier = R44 approved
  - RF products only; no FF modes
  - With beltrouting; nothing else -> Universal
  - From birth to 13 kg.
- Babycarrier + base = i-Size

User/admin info, in R44 vs i-Size

CLEPA
European Association of
Automotive Suppliers

R44	i-Size
Consumer info:	**Consumer info:**
•Mass group	•Size range
•Airbag Warning	•Airbag Warning
•No logo	•i-Size logo
•Installation instructions	•Installation instructions

R44 — Admin info:
- •Approval label
- •Mass range
- •"E4"
- •Approval number
- •"Y" symbol
- •"Universal"

i-Size — Admin info:
- •Approval label
- •Size range
- •Max occupant mass
- •"E4"
- •Approval number
- •The word "i-Size"

Not required:
Isofix logo & size
class (an archetype
babyshell doesn't
have Isofix)

User/admin info in R44 vs i-Size

CLEPA
European Association of
Automotive Suppliers

R44

Consumer info:

- Mass group
- Airbag Warning
- No logo
- Installation instructions

Admin info:

- Approval label
  - Mass range

- "E4"
- Approval number
  - "Universal"
 - "Y" symbol

i-Size

Consumer info:

- Size range
- Airbag Warning
- i-Size logo
- Installation instructions

Admin info:

- Approval label
  - Size range
  - Max occupant mass
- "E4"
- Approval number
  - The word "i-Size"
  - No "Y' symbol

Green; though different information; it is only read by very few consumers, and for special purposes only (spare parts, communication to OEM, recall, tech service & government)

Red groups; This is read by consumer; this is believed to cause misunderstanding

R44 vs i-Size; <u>Conflicting or just different?</u>

R44

Consumer info:
- Mass group
- No logo

Admin info:
- Mass range
- "Universal"
- "Y" symbol

> Red groups; This is read by consumer; this is believed to cause misunderstanding

> <u>Conflicting or just different?</u>
> Not a conflict, but it needs clarification; proposals..
> 1. Do nothing; more numers = more confusion
> 2. Combine mass group + Size range.
> 3. Other ideas …?

See Next sheet

i-Size

Consumer info:
- Size range
- i-Size logo

Admin info:
- Size range
- Max occupant mass
- The word "i-Size"

> Green; though different information; it is only read by very few consumers, and for special purposes only (spare parts, communication to OEM, recall, tech service & government)

> No problem; Just different.
> - Option to minimise confusion if we opt to forbid the i-Size logo on the R44 approved babycarrier
> - Admin contents can't change; it's already defined in reg.
> - Consumer will only look at the admin label, if they don't understand the consumer info. -> Keep approval labels as defined; improve the consumer information (more visible)

Proposals

1. Do nothing; the difference in information is not conflicting, only unclear. It is not fantastic; however adding even more numbers doesn't improve it.

2. Add a consumer information label in a visible location

> Max 13 kg
> 45-80 cm

or

> Max 13 kg
> (45-80 cm)

Requirements

- i-Size logo is not allowed to be depicted on the archetype baby carrier

- -in case option 2 is selected-

  Size range on the i-Size approval label and the Size range on the proposed addional consumer label for the R44 belted product may not be conflicting (using same size range)
