Betreff: RE: Samples of Information generated by usage of UN R10 §3.1.8

...

Following our conversation (last year) about par.3.1.8. of R.10, I received a request from the side of the TAA in NL, through a colleague of mine.

In order to ensure uniform application (for type-approval) and enable compliance/enforcement (e.g. for C.o.P.), it is requested to consider an addition to the text of par.3.1.8. that it shall also be noted in the information document. Subsequently a new item for this purpose, should be added to the information document (somewhere in Annex 2).

Thanks for your consideration.

Best regards,

Derwin
