2. OVERVIEW: INTRODUCING THE KEY INGREDIENTS OF THE IMPACT ASSESSMENT TOOL (20 minutes)

- (i) Development: Defining the metrics
 - (ii) Validation: Reaching a consensus
 - (iii) Implementation: Key requirements
- *Outcome: Broad understanding of the content, objectives and benefits of the impact assessment tool.*

3. DISCUSSING THE PROJECT'S CORE CHALLENGES (2 hours)

- (iv) How to ensure all indicators are properly scored?
 - (v) How to validate the tool to ensure its general acceptability by all stakeholders (e.g. holding meetings of stakeholder groups - team members could perhaps volunteer to organize such stakeholder consultations; making better use of the public review stage in the development of the tool)?
 - (vi) How to implement the tool (testing phase, certification, IT platform, etc.)?
 - (vii) How could the tool be used at a global level? Are there global partners who wish to join (e.g. WEF, Source, etc.)? Can it be produced as one UN?
- *Outcome: General consensus on challenges and potential solutions on addressing them.*

4. FINAL THOUGHTS - OPEN FLOOR INPUTS (20 minutes)
