The proposed regulation considers more events be recorded.

CFR part 563 requires 2 events (front or side) and most OEMs record 2 or 3 events.

Studies show ~90% of all crashes involve three impacts or less, per vehicle, in any given crash (study based on NASS GES/CDS data, GIDAS study).

It is shown that 90%以上的碰撞仅包括3个和3个以下的事件（分析数据来源于北美和欧洲碰撞事故统计）.
